VOL. XXXII BELLEFONTE, PA., THURSDAY MORNING, AUGUST 22. 1901. NO. 32.

KNOX DOESN'T HAVE IT!

Does Not Possess Information Knights of Labor Want.

THEY ARE AFTER STEEL COMBINE

He Knows None of the Individuals Who Organized It if the Press Information is Correct. Only Knows C. M. Schwab.

LAW DEPARTMENT AND LITIGANTS

WASHINGTON, D. C., Aug. 21.—A committee of the American Anti-Trust League, acting in conjunction with District Assembly No. 66, Knights of Labor, has made a written demand on Attorney General Knox for all the information in his possession or obtainable by him concerning an agreement made between the companies forming the United States Steel Corporation. In its letter the committee says:

"Our request is founded upon information and belief that at the time that this contract or these contracts were made you were in some way officially connected with the Carnegie Steel Company, which institution is one of the principal companies in the United States Steel Corporation. As this information is doubtless in your possession, or conveniently at hand, you will greatly oblige this committee by giving us the substance thereof in your language, or, if possible, a copy thereof. Our object is to prevent the failure of justice in certain legal proceedings which we contemplate in the near future."

Attorney General Knox says:

"I don't know who the individuals are who organized the United States Steel Corporation. If they are the persons usually named in the newspapers as the promoters of that organization, with the single exception of Mr. C. M. Schwab, I don't know, never saw and was never in any way connected with one of them. I never heard of any agreement between them and the constituent members of the Steel Corporation. I was formerly one of its legal advisers in the conduct of its manufacturing business, but was never consulted with reference to the formation of the United States Steel Corporation." I have never seen the papers or agreements to which you refer, nor have I been informed of their contents. I have no knowledge, whatever, of their existence, terms or scope. I am thus specific, as I desire to cover both the spirit and the letter of your inquiry. I may say, moreover, that I have no access to the agreement or papers to which you refer. I know nothing of the one to which you especially refer and do not even know that such an agreement is in existence. The information, which you request, therefore, is not in my possession, or "conveniently at hand" as you assume, and it is, therefore, impossible for me to comply with any of the requests set forth in your letter.

Mr Knox says he is ignorant of any of the matter inquired of in the letter, and is therefore unable to furnish any of the information requested. He adds: "All this information you could at any time have acquired through the usual methods of direct personal inquiry, thereby avoiding the doubtful propriety of addressing me through the medium of an open letter which you concurrently delivered to the press. This department was not called into being to furnish information to private litigants. Its duty and its object is to enforce the federal statues as interpreted by the courts wherever there is probably cause for believing that they have been violated.

Another Unfortunate.

Tuesday morning the remains of an unknown man were found alongside the P. and E. tracks between the Ferney tower and Ferney. The lower part of the man's head was crushed in and his left foot was cut off. He was otherwise cut and bruised. In his pocket was a baggage check from Emporium and a watch. There was no money on his person.

It is not positively known how the man was killed, but it is supposed that he was stealing a ride on No. 84 freight and fell off, or was run over by that train. The remains were removed to Ferney and Coroner Shoemaker, of Clinton county, was notified.

The man is about 6 feet tall, wore black clothes and brown slouch hat; had a smooth face and was about 30 years old. If not identified soon the overseers of the poor will bury the body at Ferney.

Reunion of Co. E, 45th P. V.

Saturday the 17th inst. was a big day for Baileyville as well as for the few survivors of the old Scott Guard. Notwithstanding the rain the old veterans and their family's came in troops, so the forenoon was spent in greeting old comrades, Jim, Bill and John and recall memories of 40 years ago, when the company started from that place to the seat of War. The company was then known as the Scott guard, but on their arrival at Harrisburg was made the Cullor Company of the 45 Pa. Regt. then being organized by Col. Thos. Welsh. They started out with 101 men with Harry Stevens as captain. The company was recruited up with 90 additional men, of the whole number 37 are living but 17 answered to roll call Saturday. They received a royal welcome and were made to feel at home as they surrounded a well spread table prepared by the citizens. The bounteous repast was preferable to hard tack.

Dinner over chairman Capt. W. H. Fry, called the meeting to order. Rev. W. P. Shriner of Bellefonte, made an earnest prayer. When on motion Wm. Ellenberger and J. G. Heberling were elected Vice presidents, J. R. Pheasant Pay master, and W. H. Fry, Ajt. Rev. J. O. C. McCracken was next introduced he being a nephew of Capt. J. O. Campbell and delivered an eloquent address of welcome to the old Scott guard that marched out to battle for this Country before he was born, this was responded to on the part of the veterans by Gen. Beaver who was associated with them as their Lieut. Colonel in the early part of the War, and knew every member well.

On October 7, 61 the company was ordered South to Port Royal and were in the battles of James Island, S. C. Fort Pulaski, Georgia, and many smaller engagements, the following year they were united with Gen. McClellan's Army and were badly cut up at South mountain and Antietam, they accompanied the 51st Pa. Regt. in the gallant charge which forced the now historic Burnside Bridge. The next battle was Fredericksburg after which they were transferred to the army of the west with the 9th corps at Vicksburg, and Jackson, when they were transferred to Tennessee and Kentucky and were in the Knoxville seige two weeks The next fights was at Cumberland Gap, Blue Springs and Campbell Station, from this they joined Gen. Grant and wherever the army of the Potomac fought this command was found until they surrendered at Appomatox. It was mustered out July 12th 65 at Alexandria, Va. They struggled over for the mastery had saw their brave comrades fall and heard the shouts of victory that sounds as fresh on their memories as but yesterday. The roll was called but of the 36 surviving members 16 answered to their names. They were Bart Henry, Cupp Perry, Ewing Jerry, Ellenberger Wm., Fry W. H., Heberling J. G., Irvin Henry, Love David, Loner G. W., Lemon J. R., Meyers Jas., MCurdy J. S., Pheasant J. R. and Capt. Harry Stevens.

Letters of regret were read from Capt. John Harpster, J. Hall Musser and Port Batiman. A marked feature of the day was the rendering of some stirring martial music with fife and drums that were used by the company in Summer of 61. Rev. W. P. Shriner of Bellefonte was the next speaker and held the audience the next hour, paying a beautiful tribute to the boys in blue who went forth to do battle for the right. Photographer Ward was on deck and grouped the members of Co. E. A vote of thanks was tendered the committee who prepared the way for the very elegant reunion, and the citizens for the splendid repast, also the speakers for the eloquent addresses made, and the 40th anniversary of Co. E, was at an end. The remainder of the day was spent in swapping yearns and reminiscence of earlier days.

Receiving Anonymous Letters.

PITTSBURG, August 21.—Dispatches from Somerset, Pa., where the Second brigade of the National Guard of Pennsylvania, is in camp, report that a number of anonymous letters have been received by the regimental commanders containing threats in connection with possible duty of the soldiers. A fair sample is the following:

"Dear Sir: In case your command is called upon to do duty against the steel strikers, do not forget that there are many laboring men and union men in your regiments, and watch where you stand when you give the order to fire."

The matter has been placed in the hands of the United States postal authorities and an investigation will soon be in progress. Nothing could be learned in Pittsburg, as Postoffice Inspector O'Brien is out of the city.

—The Renovo fire department was awarded one of the prizes at the firemen's demonstration at Emporium Thursday.

STEAMER WRECKED!

The Islander Struck an Iceberg and Went Down.

MAD SCRAMBLE FOR BOATS

Disaster Occurred at 2 O'clock When All on Board, Except the Different Watches of the Crew, Were in Their Beds.

SIXTY-SEVEN LIVES WERE LOST

VICTORIA, B. C., August 20.—The steamer Islander, the flagship of the Canadian Pacific Navigation fleet, and the largest and fastest passenger steamer on the Skagway-Victoria route, collided with an iceberg off Douglas Island, Alaska, at 2 o'clock Thursday morning, while on her way south with the largest number of passengers that she has carried since she was placed on the run a few months ago, and sank within fifteen minutes after striking. Captain Foote, her master, and about sixty five persons, including passengers and members of the crew, were drowned. To add to the horror of the terrible disaster her boilers exploded as she went down, causing the death of many of those who were struggling in the water.

The steamer left Skagway in the evening of Wednesday last and was proceeding out of Lynn canal when the collision occurred. Most of the passengers and the members of the crew who were in bed were rudely awakened by the shock. The majority got on deck in time to be saved in the boats which were quickly manned, but a large number went down in their staterooms. Some of the survivors arrived here Sunday evening by the steamer which passed over the scene of the appalling disaster on the following evening and picked them up at Juneau, to which city they had been taken.

The news came as a terrible blow to the citizens of Victoria, many of the lost being well known and having families in this city, and was particularly sudden, as the steamer had been expected, and many were awaiting her arrival when the Queen came in with the news. It is impossible at present to obtain a complete list of the dead, as Purser Bishop remained at Juneau to attend to the forwarding of the passengers and kept the ship's papers with him. He sent a letter to Mr. Vincent, secretary of the company, but gave but a few names of those who had been lost, and no details of the wreck. The officers and passengers who came down were likewise unable to give any but a very incomplete list. All estimate the loss of life at about sixty-five and give the greatest praise to the officers for the manner in which they acted under the most trying circumstances. The officers, on the other hand, state that had not the passengers rushed the boats, the loss of life would have been very small. The survivors were landed on Douglass Island and the mate was sent to Juneau for help. The steamers Flossie and Lucy responded and took them to Juneau.

All the rescued speak in high terms of the courage and assistance given by Chief Engineer Browless and First Officer Neurotsos, who saved several lives. The intense cold of the water caused severe cramps among many who were on life rafts and resulted in death from exposure. The bodies of those dying in this manner turned black.

Pilot Lablonde, who had charge of the steamer, said:

"The night was fine. As we always expect to meet ice, a sharp lookout was kept. About 2:48 the crash came. The boat was under full speed and no ice was in sight and there was no fog. The fatal berg, no doubt, was even with the water. As she struck I stopped the engines, then Captain Foote appeared with the night watchman, who reported the ship leaking forward. I told Captain Foote that we would better hold for the beach, but the ship was making water so fast she would not answer her helm. Then I called the mate who ordered the boats. This was done and they were lowered with passengers. Many passengers jumped overboard with life preservers on. I jumped overboard and was in the water over two hours before securing a piece of wreckage."

—Rev. Ferdinand Kittell, of Loretto, has announced Wednesday, Oct. 2, as the date for the dedication of the handsome new Catholic church which Charles M. Schwab is building for the people of Loretto. The church is now closed and will remain so until it is ready for dedication. One thousand dollars' worth of candlesticks and $1,200 worth of new vestments have been ordered for the occasion.

Edwards—Kennedy.

Monday evening Miss Maude E. Kennedy of State College became the bride of Mr. Oliver C. Edwards, '00, of Pittsburg. Mrs. Chas. T. Aikens began a wedding march at 7:30 o'clock, and the bride attired in white, with the groom in conventional black, soon stood before Rev. Aikens, who made them man and wife. The marriage was a ring ceremony and its length made the little boys outside impatient. Scarcely were the last words said before they began a serenade, in which Mrs. Aikens and Will Kennedy lost no time in taking part. After receiving the congratulations and best wishes of those inside, the young couple "showed" themselves to the serenaders, while Mr. Edwards did the handsome thing.

Mr. Edwards is an assistant manager with the National Steel and Tube Co., of Pittsburg, and is fairly well known in State College, inasmuch as he spent some time here as a student. The bride is a model girl, loved by all who know her. She is an excellent musician and has fine social qualities. She will make a good wife, and has the earnest wishes of all for a happy married life.—State College Times.

Grave Dug Before Death.

A Bellefonte dispatch to the Philadelphia *Times* Saturday morning says:

John Rishel, a farmer, of Benner township, this county, has just had graves dug for himself and wife in the Union Cemetery, although neither he nor Mrs. Rishel are in such a condition of health but that they may live many more years. He is about 70 years old. Some time ago he conceived the idea that he would like to know for a certainty just where he and his wife would be buried, and, being the possessor of a lot, he sought out the sexton and instructed him to dig the graves thereon.

The sexton was startled when Rishel told him they were for himself and wife. Difficulty was at first found in securing the permit, but this was adjusted, and the graves or, more correctly put, the double grave was dug. It is seven feet square and seven feet deep. When finished it was covered by a large flat stone and this covered by a thin layer of sod, so that no visitor to the cemetery may, without investigation know that unused graves are there.

Interred at Beech Creek.

The remains of W. D. Miller were brought from Pittsburg to Beech Creek Saturday night, and the funeral took place Sunday afternoon from the residence of his father, Carpenter Miller. Rev. Charles Woodward, of Howard, conducted the services and interment was made at the Eagleville cemetery. The casket bearers were: Harry Packer, Ralph Hall, Charles Miller, Edward Reed, Rufus Johnson and Oscar Delong.

The young man was a brakeman on the P. R. R. While making a coupling Friday between an engine and the tender, the two separated and the brakeman fell to the rails, where he was run over by a caboose. His body was crushed. His parents and sister, Mrs. Ella Morrisey, of Wall, Pa., survive.

Run Over by the Cars.

John Wilson, an eight year old boy, while playing with other companions on the cars at Munson Station on Saturday afternoon, accidentally fell under the wheels of the moving cars and had one of his legs and hand run over. He was brought to the Cottage State hospital at Philipsburg Saturday night where it was found necessary to amputate his right hand with the exception of one finger and thumb. His right foot was badly lacerated, but it is thought the foot can be saved. Today he is getting along as nicely as could be expected.

—Harry Sands, aged 12, and an 11-year old boy named Robinson, two Altoona lads, left their home on Wednesday afternoon and their whereabouts are still unknown. They had in their possession between $12 and $14, and, when last seen, they had bought tickets at the Altoona station for Union Furnace. Boarding an afternoon train Wednesday they went to that place, where it is thought they went over the mountain to the Beaver Dams. The father of young Sands is searching for the boys.

—Potter's block at Philipsburg has a new owner. Dr. Potter has sold his property, corner of Front and Presqueisle streets, A. Sweigard being the purchaser, the price being $30,000. Mr. Sweigard is the president of the Centre and Clearfield Railroad company. A large amount of money will be spent on remodeling and repairing and adding to the already large and commodious building. Dr. Potter built the first corner in 1869 and has lived there since.

COSTLY CLOUDBURST!

Damage to the Lehigh Valley Railroad Is Considerable.

SOME TRACK WAS SWEPT AWAY

In Addition to This the Vosburg Tunnel Was Blocked With Logs, Stones and Other Debris Brought Down By the Water.

SOME PASSENGERS WENT HUNGRY

WILKESBARRE, August 19.—The washout on the Lehigh Valley railroad at Vosburg, 40 miles north of here, Saturday evening was the most disastrous in the history of the road. Fortunately no lives were lost, but the damage done was considerable.

The Black Diamond express bound west and carrying New York and Philadelphia people, got within six miles of the washout when it was halted. The officials of the road saw that it would be impossible to get the train through the tunnel during the night so they ordered it back to Wilkesbarre. It arrived here at 11 o'clock and the passengers were given their choice of staying at a hotel over night or take an early morning train over the Delaware and Hudson and Erie railroads to Waverly, N. Y., where connection could be made with the main line of the Lehigh Valley again.

Most of the passengers remained in the city over night and Sunday morning some of them returned home while others continued their journey west over the Delaware and Hudson.

The Black Diamond express eastbound and carrying New York and Philadelphia passengers from Buffalo was held at Mehoopany, a small station five miles west of Vosburg tunnel. The train was running at the rate of fifty miles an hour when it struck the storm.

The train remained in the storm all night and Sunday morning the passengers were all transferred to lighter cars and taken over the Harvey's Lake branch, arriving in Wilkesbarre at 10 o'clock. As soon as the train stopped a rush was made for the hotels and restaurants. The food supply on the dining car had given out Saturday night and the passengers were hungry when they reached here. Shortly before noon a train for the east was made up here and it carried the belated passengers to their homes.

The officials of the railroad made every effort to repair the damage and resume traffic. An investigation showed that a cloudburst had occurred and that it washed out the roadbed for over an eighth of a mile.

But the greatest damage was at the tunnel. Thousands of tons of loose earth was washed down the embankment carrying with it the logs and other debris. The latter blocked the entrance to the tunnel and the water accumulated on the tracks to a height of five feet. Help was summoned from everywhere along the line and early Sunday morning an army of men were at work. The heavy rain continued until Sunday afternoon and this retarded the work very much. At 10 o'clock last night the company officials said the tunnel would be cleared before midnight and through traffic would then be resumed.

Chickens Destroy Grasshoppers.

The grasshoppers in Bradford county are now camping on W. H. Snedekers' 28 acre celery patch, and he has hit upon a plan of warfare against the pests which seems to be working very well and promises to save the crop.

He has placed coops of chickens in various parts of the field, and 500 fowls, old and young, are busily engaged in having family picnics at the expense of the hoppers. Besides the number that are eaten, there are hosts of them frightened away by the chickens.

His Successor Appointed.

The Rev. Thomas Broderick, of Susquehanna, has been appointed by Bishop Honan, of the Scranton diocese, to succeed Monsignor E. A. Garvey as pastor of St. John's church, in Pittston. The appointment includes the office of vicar general and successor to the present bishop.

—Last Monday night Elijah Pantell, who lives in Lindsay, heard a peculiar noise in his yard, but thought little of it until the next morning, when he found a new straw hat of good quality and a quart bottle half full of whiskey near his well. The well is 90 feet deep, and open, and it is to be presumed that the man is at the bottom of the well.—Punxsutawney Spirit.

Cupid's Work on An Army Transport.

CARBONDALE, Ill., Aug. 19.—It is a well-known fact that an ocean voyage offers ideal facilities for courtship, but all records in this line were probably broken during the run of the United States transport Thomas from San Francisco to Honolulu.

The Thomas was carrying 400 teachers from the United States to the Philippines, and on reaching Honolulu sixty of the teachers were married and it is reported that thirty other couples are engaged. The teachers were chosen from normal schools all over the country and were strangers to each other. Their acquaintance and the courtship of the 120 entrapped by Cupid lasted over a period of less than ten days, the time of the run to Honolulu.

A letter received here Friday from one of the teachers appointed from this city gives the foregoing and says that the captain of the Thomas refused to permit the weddings while at sea, and the thirty couples, upon the arrival of the transport at Honolulu, sought out a clergyman and were married. A boat was chartered and the thirty pairs made a tour of the bay.

A panic was almost caused among the teachers when the captain ordered that all abroad must submit to vaccination. Some of the schoolma'ams objected strenuously and some of them refused absolutely to mutilation of their arms, until the captain threatened to put them in close confinement on board ship. This brought a speedy acquiescence, but when the surgeon appeared they presented their feet instead of their arms.

Nearly all of them were vaccinated just above the ankle and were lame for several days. They appreciated the wisdom of this course, however, when upon their arrival in Honolulu they were entertained at a dance at the Hawaiian Hotel, in which nearly all of the women teachers appeared in evening gowns.

Reunion of Veterans.

Saturday, August 17, [illegible] for Baileyville and vicinity. It was the anniversary of the formation of Co. E, 45th Pennsylvania Volunteers, and was observed with a veterans' picnic, speeches, ball game, etc. Capt. W. H. Fry presided at the meeting held and addresses were made by Gen. James A. Beaver, Rev. W. P. Shriner and John A. Daley. Prayer was offered by Rev. John C. McCracken, of Johnstown.

An elaborate dinner was served by the ladies of Baileyville and vicinity which was highly enjoyable.

The officers elected for the ensuing year are as follows:

President—0.

Vice Presidents—William Ellenberger and J. C. Heverly.

Treasurer—J. R. Pheasant.

Secretary—Capt. W. H. Fry.

Out of the 38 surviving members of this company 17 answered roll call at this reunion; 12 have died since their last meeting.

Fifty-five Days Without Food.

Mrs. Jane Lynn, of near Emlenton, Venango county, died Monday after a most remarkable fast. In sixty-one days she swallowed only one ounce of food, and for fifty-five days she took absolutely nothing, with the exception of a small glass of water occasionally

Physicians say her case far outdid that of Tanner, who entered his fast after physical training and lived without food forty days. Mrs. Lynn had been an invalid for many years.

Hid the Money in a Stocking.

Lee Carpenter, of Jersey Shore, an employee of the New York Central railroad, received his month's pay Thursday and handed the money to his wife, who hid it in her stocking. That night burglars entered the house, ransacked every nook and corner and went through the wearing apparel in search of the money, but the stocking lying on the floor was left untouched, and Mrs. Carpenter is being congratulated on her shrewdness.

Drunkard Strapped to a Pole.

To cure Mike Liddy of his drunken spree, certain citizens of Driftwood dragged the intoxicated man to a flag pole near the Sinnemahoning where he was strapped feet upward to the pole, with his head clear of the ground. Mike hung in that position until early the next morning, when his cries and curses summoned passers by to his assistance. Mike was sober when cut down.

Fell Into a Saw.

John Breon had a peculiar accident Tuesday while working in the woods near the saw mill of Mr. Decker, at Logan's Gap, near Penns Cave. He was standing on a log which was being cut in two by a cross-cut saw, and fell from his perch, his right arm striking the saw teeth. The flesh was considerably lacerated, the wound being very painful.

HARD ON THE NERVES

RUNNING TRAINS OVER MOUNTAIN ROADS IS RISKY WORK.

It Takes Youth and Strength and Courage to Hold an Engineer's Job on One of These Brain Whirling, Nerve Racking Runs.

"One of the greatest difficulties of the real mountain roads, like the Colorado Midland, the Rio Grande Western and the Denver and Rio Grande, is in getting engineers," said the city passenger agent of the Rio Grande Western road. This gentleman is familiar with all the intermountain roads, where the trains have to all but fly to reach some of their destinations.

"One might suppose that all roads would look alike to the experienced engineer, but they don't. Along some of the prairie roads an engineer can take a run on any new track almost as well as on one he has traveled for years and knows with his eyes shut. But here in the west it is different. Down in Colorado, where are some of the greatest monuments to the railroad builder that have ever been erected, an engineer has to travel over the roads sometimes for weeks with old, experienced engineers who know the track before he will be trusted with a train. It isn't a question of engineering ability; merely one of experience.

"It is enough to take a fellow's nerve to sweep around some of those mountain curves and passes for the first time. Some good men never take more than their first ride. I have seen engineers come from the east, men of gilt edge character and ability, who lost their nerve with the first trip and took the first train for a flatter country. Dizzy reverse curves, trestles that seem to totter in the wind, precipices that seem to yawn for a fellow's life and grades that are a revelation of horror to the newcomer crowd in bewildering confusion on the view, and unless a fellow is as stolid as an ox or nervy as the mischief he is apt to lose his head.

"You would be surprised at the number of young engineers who are on the mountain roads. For one thing, a man does not last there as he does on a less picturesque, more prosaic run. It takes youth and strength and courage of a rare order to stand it all. The companies are the most appreciative in the world, for they realize how hard it is to get a good man, and they treat a good man right royally. But even this does not attract a surplus of the right sort.

"The principal dangers are in the heavy grades and in the sharp curves, though landslides are far from unknown. One must know his train and his road like a book to get through with his life on the Marshall pass, for instance, where you seem to plunge headlong down the mighty hill. A rock on the track, a broken wheel, a runaway car or a failure of the brakes to work would end in a smash up that would startle the whole country. The hill might be a glare of ice or frost, it might be wet or snowy, and if you set the airbrake too hard so as to start the wheels to sliding down the hill you go like a gigantic toboggan, with death and destruction at the end of the ride. The management of the airbrake and knowing where the curves and dangerous places are is the greatest part of an engineer's education in the mountains.

"For my own part, knowing the dangers as I do, I feel nervous after riding 100 miles over the wildest parts of the roads even as a passenger. I rode through the Royal gorge on the engine a few weeks ago and was glad when the ride was over. It makes a fellow feel trembly like to think what might be, though the worst rarely happens. Such is the care taken in equipment and in getting the best men that the mountain roads have as small a proportion of losses as the dead level roads of the plains. But it takes a man of nerve to pilot a train through some of the wilder regions.

"A freight train is the worst, in that it is much heavier than a passenger and is expected to make almost the same time. All the heavy stock trains going east, 25 to 30 cars, make passenger schedule. A freight is so loosely coupled as to be very unmanageable at critical points. The stock trains are the terror of the engine drivers and all the trainmen.

"A fellow isn't necessarily a coward when he throws up his job as engineer over the mountain roads, after seeing what the dangers are. Not one passenger in 10,000 would assume the same danger. The position calls for absolutely steady nerve, and one who feels that he is likely to get rattled is dangerous to himself, to the company and to all who ride behind him. A man must think and act like lightning in the face of so many dangers that he must be sure of his ability to stand the strain. No one stays any great number of years. It is beyond one's power to do so and be safe. A man may be brave and willing and all that, but these are not enough. He must be sure and proof against stampede. Such a man is worth everything to the companies, and they treat him like a prince."—Butte Inter-Mountain.

A Black Flower.

Fame and fortune await the ingenious horticulturist who can suceed in producing a flower that is entirely black, a problem that has hitherto defied the efforts that have been made in that direction for more than three centuries past, for, notwithstanding the sensational novel of Alexandre Dumas, entitled "The Black Tulip," there is no such thing as a really black flower in existence, although almost every color and shade of the rainbow is present in flowers and blossoms.

Deceitful.

"But she looks so confiding."

"That's just what makes her so horrid. When you get to know her, you find that she has nothing to confide."

FOND OF THE GIRLS.

The Love Affairs of the Father of His Country.

George Washington's love affairs began at a very early age, and he was to the day of his death "fond of the girls." The first sweetheart was one Mary Bland, with whom he fell in love when he was only 14 years of age. This is ascertained from an entry in one of his diaries, where he refers to her as his "lowland beauty." Having tired of Mary, he wrote to a friend that he had decided to "bury his chaste and troublesome passion," which, having done, he soon found himself enamored of Lucy Cary, a sister-in-law of Colonel Fairfax. His affection for this young lady lasted for some years, being only interrupted now and again by his natural Virginia passion of making love to every pretty girl whom he met.

In 1752 his first serious love affair was shattered. Having fallen in love with a certain Miss Betsy Fauntleroy, he determined to ask her to become his wife, but the fates had destined him to marry another, for she rejected his proposals. He afterward came back to her, but found that she had not changed her mind on that score.

His next heartache was caused by a girl in New York after he had become a colonel. She was the heiress Mary Phillipse. His business called him away from her; but, having finished this, he returned to New York and proposed to her, but was here, as before, disappointed by her refusal.

In 1758 at Waynes Ferry, while traveling to Williamsburg with dispatches, he met his future wife, Mrs. Martha Dandridge Custis, the widow of Daniel Park Custis. We learn from history that she was young, pretty, intelligent and rich. He had been with her all of an afternoon and was to ride away to his home the next morning. On his way he stopped at her home and then and there told of his love and asked her to become his mate for life.

This time, contrary to his previous proposals, he was accepted.—Chicago Times-Herald.

HOUSEHOLD HINTS.

Set a small box of lime in the pantry, and it will help to keep it dry and the air pure.

Soda should never be used for flannels, and if they are kept in good condition they should be neither mangled nor ironed.

Mud stains can usually be removed from silk by rubbing with a piece of flannel. If the stain proves obdurate, rub with a piece of linen saturated with alcohol.

If your window glass is lacking in brilliancy, clean it with a liquid paste made of alcohol and whiting. A little of this mixture will remove specks and impart a high luster to the glass.

To render feathers white immerse them for a short time in naphtha or benzine. Rinse in a second dish of the same and dry in the open air. Then bleach by exposing in a box to the vapor of burning sulphur in a moist atmosphere.

Good clear starch is easily made. Wet the lump starch with cold water, stir till smooth, pour on boiling water and cook till clear. It takes a quart of boiling water to "clear" two tablespoonfuls of lump starch. If too thick, thin with blued water.

Including the Frame.

His indulgent friends had praised his attempts at painting and drawing to such an extent that the youth really imagined himself to be an artist. His wealthy friends even bought his pictures for considerable sums of money "to encourage him," as they said.

Recently in walking along the Strand in London he was much delighted at seeing one of his pictures, finely framed, in a dealer's window, especially as he was walking with a pretty lady before whom he wished to appear in the best possible light.

Calling the attention of the lady to the picture, he said:

"Pardon me, but I have some curiosity to know how my pictures stand commercially."

And the two entered the shop.

"My good man," said he to the keeper of it, "what is the price of that picture in the window here?"

"Three shillings."

"Great Scott!" cried the artist recoiling.

The shopman, thinking the exclamation to be one of surprise at the high price, added:

"Well, it includes the frame!"—Exchange.

The Successful Doctor.

The king of purgatory sent his lictors to earth to bring back some skillful Chinese physician. "You must look for one," said the king, "at whose door there are no aggrieved spirits of disembodied patients." The lictor went off, but at the house of every doctor they visited there were crowds of wailing ghosts hanging about. At last they found a doctor at whose door there was only a single shade and cried out, "This man is evidently the skillful one we are in search of." On inquiry, however, they discovered that he had only started practice the day before.—Giles' "History of Chinese Literature."

To Be Wise.

"Ef you wants to git de reputation o' knowin a lot," said Uncle Eben, "keep still an let de yuthuh feller talk. He's gwineter to go away wif de idea dat you couldn't he'p bein purty wise abter listenin so long to him."—Washington Star.

Be brief, for it is with words as with sunbeams, the more they are condensed the deeper they burn.

The average man gets angry every time he is in the wrong and knows it.—Chicago News.

COUNTERFEIT GOLD.

GILDING POWDERS ARE MADE OF COPPER AND SPELTER.

How the Material That Gives the Shining, Metallic Finish to Mirror and Picture Frames Is Produced. Gold Leaf Without Gold.

How many persons who see the shining gold in colored printing and on mirror and picture frames know that gold does not enter at all into the composition of the stuff that produces these golden effects?

The shining metallic effect is produced by a fine powder made from a mixture of bronze and spelter. This offers the cheapest and best means of giving the rich surface demanded in wall papers, printing, lithography, frescoing and in a vast range of manufactured articles of wood, paper and iron.

The material used is so called Dutch metal, an alloy of copper and spelter. The relative proportions are varied to produce different colors. The larger the percentage of spelter the lighter or more yellowish will be the tint of the alloy.

The copper and spelter are smelted in graphite crucibles containing about 400 pounds of metal, which, when completely fused, is run off into molds, forming half round ingots two feet long by half an inch in thickness. After cooling these are bound into bundles and sent to the rolling mill, where they are passed cold nine times through a double set of steel rolls under enormous pressure. This flattens them and draws them out into thin ribbons from 50 to 60 feet long and something more than one inch wide. Cold rolling under such extreme pressure makes the metal brittle, so it passes to the annealing furnace, which is heated by wood fire, as the sulphur in coal or coke would be injurious to the ribbons.

Having been softened and rendered ductile by annealing, they are cleansed in an acid bath, cut into lengths of about three feet and collected in bundles of 40 or 50 strips each. They are laid between sheets of zinc and passed under hammers which beat the metal strips to the thinness of tissue paper. This requires six successive beatings, and great skill must be exercised to produce a uniform and unbroken foil. After the third beating the metal strips are taken from between the sheets of zinc, loosened from each other and cleansed by immersion in a bath of tartrate of potassium. The cleaning is repeated after the last beating, and the sheets are hung on lines to dry. In the beginning the rolled strips are a dull gray metallic color, at the fourth beating the yellowish color begins to show, and after the sixth they are clear and bright as gold.

The defective leaves are then thrown out and the perfect ones cut into small squares, which are laid together by hand in packets of several hundred each and inclosed within an envelope of sheet brass. The packets return to the annealing furnace, where they are softened by heating and slow cooling, and then go to the beaters, where they are reduced under flattening hammers to the thinness of real gold leaf, so thin that it can be blown away by the breath.

The manufacture of bronze powder consists in grading, clipping and pulverizing the various bronze foils to an even, impalpable powder and is an industry of comparatively recent date. It began as a means of using up and utilizing the imperfect leaves which came as waste from the beaters of gold, silver and bronze. These were cut by hand into fine clippings and then ground to powder in hand mills of simple construction. With the lapse of time and the spread of artistic industries the uses of bronze powder increased until the demand far outran the supply of waste, and the leaf metal is now made on a large scale.

The beating process flattens out a pound of copper and spelter alloy to an area of about 500 square feet, and in this condition the square sheets as they come from the brass envelopes are sheared into small fragments and rubbed with olive oil through a steel sieve having ten meshes to the inch and then passed to the stamping and grinding machines, where they are pulverized by steam or water power to the bronze powder of commerce. The grinding occupies from one to four hours, according to the grade or quality of the powder to be produced, which is of four grades, from coarse to superfine. The superfluous oil is removed by heating under pressure, and the powder is then carried into centrifugal clarifiers, or grading machines, which, turning at a high speed, expel the powder through fine orifices in the form of dust, which settles on inclosed shelves, according to weight and fineness, the finer particles at the top, the coarser below, and in this way the powder is divided into its various grades.—New York Press.

How Customs Vary.

She—In some parts of Australia when a man marries each of the bride's relatives strikes him with a stick by way of welcome into the family.

He—Yes, and in many parts of America when a man marries each of the bride's relatives strikes him with a loan by way of welcoming him into the family.—New York Times.

Traveling Experiences.

Mother—Sir, I hope my little boy doesn't worry you by his fretting and crying. He isn't well, or he wouldn't act so.

Mr. Man—Oh, no. All children act that way. I'm used to it—in fact, I haven't seen a well child for 20 years.—Chicago Herald.

A man should not be blamed for the mistakes he makes. He should be credited as he profits by them.—Atchison Globe.

THE OLD FASHIONED BOY.

Oh, for a glimpse of a natural boy—
A boy with freckled face,
With forehead white 'neath tangled hair
And limbs devoid of grace;

Whose feet toe in, while his elbows flare;
Whose knees are patched all ways;
Who turns as red as a lobster when
You give him a word of praise;

A boy who's born with an appetite,
Who seeks the pantry shelf
To eat his "piece" with resounding smack,
Who isn't gone on himself;

A "Robinson Crusoe" reading boy,
Whose pockets bulge with trash,
Who knows the use of rod and gun
And where the brook trout splash.

It's true he'll sit in the easiest chair
With his hat on his tousled head;
That his hands and feet are everywhere,
For youth must have room to spread,

But he doesn't dub his father "old man"
Nor deny his mother's call
Nor ridicule what his elders say
Or think that he knows it all.

A rough and wholesome natural boy
Of a good old fashioned clay—
God bless him, if he's still on earth,
For he'll make a man some day!

—Detroit Free Press.

GOT THE POSITION.

She Successfully Played on the Weakness of the Statesman.

The New York Herald tells how a diplomatic young lady who understood the weakness of politicians secured some years ago a place in the state service.

The day before the opening of the session a shy girl knocked at the door of the attorney general's office.

"Is the attorney general in?" she asked timidly.

"Yes," said the clerk. "He will see you when he gets through with this long line of job hunters. Just have a seat."

In the numerous chairs, on the office lounge and standing were 20 more waiting for a turn to press some claim for a position.

The attorney general was rather a gruff looking man, and he dismissed each with the remark: "I can't do anything for you. Sorry, you know, but there are hundreds of applicants, and each officer, every legislator, has a dozen begging for each position."

When the timid girl's turn came, she handed the impatient looking officer a letter. She said nothing. She hardly looked into his face.

"I'm sorry, Miss C., that I can do nothing for you. It was foolish for you to come here expecting to get work. I'd be glad to help you if I could; but, you see, it's this way: I have no influence to get you a position. I am very"—

"We were speaking of that at home, but I thought it would do no harm to see you," she interrupted. "And we were saying what a pity it was that you had lost your influence."

The state official winced. He looked as if something hurt him.

"Brown," he said, turning to his deputy with undisguised admiration, "this young lady is to have a position in the enrolling department. See that there is a place for her if you have to muzzle every legislator in the building."

Devastating Power of Locusts.

A swarm of these insects stopped the advance of a Russian army. They filled the air and blinded both officers and men, so that the former could give no orders, and even if they had done so the men could not have obeyed them. The horses would not face them, and they lay on the ground many inches thick. Every man and horse in the army was incrusted with the insects, and their clothing was literally eaten off the men as they stood helpless and blinded. The railways were useless, as the locusts covered the rails, and the oil which exuded from their bodies when crushed prevented the driving wheels from "biting." After they had settled whole regiments were detached for the purpose of trampling them to death. Trenches were dug across their path and filled with burning coals, but the crowding swarms actually smothered the fire, so vast were their numbers.

Even in a little island like Cyprus in one year one-fifth of the entire revenue was spent in destroying the locusts, and especially their eggs. When these eggs are laid, they are inclosed in a horny envelope called a "pod," each pod containing 35 eggs. In seven months 1,330 tons of pods were destroyed. Now, a single ton of pods contains 60,000,000 eggs, and yet, in spite of this almost incredible destruction, the locusts are still a dreadful plague and show little if any symptoms of diminution in numbers.

Expenses of a Yacht Owner.

There is no question that modern luxury has reached its most extravagant pinnacle in yachting, which, in the elaborate profusion of its expense, brings us very close to the latter days of the Roman empire. Take a single case. A boat like Colonel Payne's 650 ton yacht Aphrodite carries a company of 60 men—captain, first and second mates, carpenter, chief steward, assistant steward, 2 bedroom stewards, pantryman, chief cook, 2 assistant cooks, chief engineer, 3 assistant engineers, 3 oilers, 15 firemen and 19 men before the mast.—Leslie's Monthly.

Mental Quiescence.

"Haven't you any positive opinions on any subject?"

"No. By not having positive opinions, you see, a man doesn't have to wear himself out backing them up."—Detroit Free Press.

A Delusion.

Willie—Those goldfish you sent home are fakes.

Slimson—How do you know?

"Why, I took them out of the water, and they turned brown in 15 minutes."—Life.

It is a mistake to suppose that it is always the last straw which breaks the camel's back.—Chicago Herald.

MEN'S VIEW OF WOMEN.

Earth has nothing more tender than a pious woman's heart.—Luther.

Remember, woman is most perfect when most womanly.—Gladstone.

Lovely woman that caused our cares can every care beguile.—Beresford.

He that would have fine guests let him have a fine woman.—Ben Jonson.

A woman's strength is most potent when robed in gentleness.—Lamartine.

Disguise our bondage as we will, 'tis woman, woman, rules us still.—Moore.

Oil and water, woman and a secret, are hostile properties.—Bulwer Lytton.

Women need not look at those dear to them to know their moods.—Howells.

Kindness in woman, not their beauteous looks, shall win my love.—Shakespeare.

Raptured man quits each dozing sage, O woman, for thy lovelier page!—Moore.

He is a fool who thinks by force or skill to turn the current of a woman's will.—Samuel Tuke.

The most beautiful object in the world, it will be allowed, is a beautiful woman.—Macaulay.

If the heart of a man is depressed with cares, the mist is dispelled when a woman appears.—Gay.

Taking Sunday Collections.

An old and not yet obsolete mode of taking a collection in a Scotch church is by means of a ladle—a small wooden box at the end of a straight wooden shaft about four and a half feet long, the top of the box being sufficiently open to receive contributions of money. For all special collections this was the usual mode in the chief churches of Edinburgh when I was a boy at school there 50 years ago, but it has gradually gone out of fashion and is not often to be seen nowadays.

For ordinary Sunday collections the general custom has been to have a metal plate or basin on a small table at the church entrance superintended by an elder—a mode which was often called the brod. When ladles are used, they are handed round the congregation by elders after the sermon or after the last psalm, and the common Scotch phrase to "lift" the collection may have come from this custom.—Notes and Queries.

Some Queer Verdicts.

What is "a reasonable state of intoxication" apparently just missed precise definition by a coroner's jury in Mississippi which stated in its verdict that "we, the jury, find that deceased came to his death by a stroke of an east bound train, No. 204, on I. C. Railroad, at Fentress, Miss., in Choctaw county, he being in a reasonable state of intoxication."

A somewhat similar indefiniteness of legal conclusion mars a verdict of a neighboring Georgia jury to the effect that "we, the jury, find the defendant almost guilty."

Equally as uncertain and ambiguous as these statements by laymen is the opinion in an early Maryland case which "acknowledges the corn" by saying that an occurrence referred to took place "at a former sitting when the court was full."

AN UNEQUALED RECORD.

THERE IS A RAPIDLY INCREASING VOLUME OF BELLEFONTE EVIDENCE ROLLING UP FOR THE GREAT MEDICINE, DR. A. W. CHASE'S NERVE PILLS.

It would seem that hardly anyone can take Dr. A. W. Chase's Nerve Pills without receiving marked benefit. The wonderful action of this medicine in putting people on their feet who are in a weak run down condition is the talk of every place they are known. It is only a short time since they first came to Bellefonte yet today they are more in evidence for merit with Bellefonte people than all other medicines combined.

Soloman Garrett of No. 301 Allegheny St., Bellefonte, Pa., says:—"I had been feeling very much run down for a long time. My head ached a great deal and I felt tired and sore all over. I was also bothered with sleeplessness at night. I saw Dr. A. W. Chase's Nerve Pills so highly recommended I got a box at Krumrine's Drug Store and they did me a great deal of good. I felt first rate after using them and have no hesitation in recommending them to others."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D. are on every package.

Special Ten-Day Excursion to Ocean Grove, Asbury Park, or Long Branch via Pennsylvania Railroad.

For the benefit of those desiring to visit the great Ocean Grove Camp Meeting, the Pennsylvania Railroad Company will, on August 23, sell excursion tickets to Ocean Grove, Asbury Park, or Long Branch from stations named below at the very low rates quoted.

These tickets will be good for passage to Philadelphia on train indicated, thence on regular trains leaving Broad Street Station at 12.27, 3.20 and 4.17 p. m. that day to destination.

	Train Leaves.	Rate.
Bellefonte	Leave 6 40 A. M	$5 75
Lemont	7.02 "	5 50
Oak Hall	7.06 "	5 50
Linden Hall	7.10 "	5 25
Centre Hall	7.22 "	5 25
Rising Spring	7.35 "	4 75
Coburn	7.50 "	4 75
Glen Iron	8.26 "	4 50
Millmont	8.33 "	4 50
Mifflinburg	8.45 "	4 50
Lewisburg	9 03 "	4 50
Philadelphia	Arrive 3.17 P. M.	

Tickets will be good for return passage on regular trains, except "Pennsylvania Limited," until September 1, inclusive, and will permit of stop-off at Philadelphia within limit returning.

The Want of Working People.

When the working man or woman feels sick—liver, stomach or kidneys are out of gear—then Dr. A. W. Chase's Kidney-Liver Pills do a world of good acting directly on these organs and the bowels.

BAY CITY.

Mr. L. H. Mans, 1301 Columbus Avenue, Bay City, Mich., by overwork and too assiduous attention to his business, brought on an attack of kidney trouble, which made it necessary for him to leave off working at times. He states:

"On the recommendation of Mr. Geo. Leyer, druggist, of this place, I purchased a box of Dr. A. W. Chase's Kidney-Liver Pills for my kidney trouble. They acted so well in relieving my pain and backache that I persisted in the use of them until perfectly cured of my trouble. I am a well man now, thanks to the use of Dr. A. W. Chase's Kidney-Liver Pills."

DETROIT.

Mr. Levi Elsey, 808 McDougal Avenue, Detroit, lived for years expecting death from heart failure and Bright's disease, but was cured by a few boxes of Dr. A. W. Chase's Kidney-Liver Pills. He writes: "For years I lived in constant fear that I should meet death through kidney trouble. I was troubled terribly by pains in my back and about the heart. My troubles are now over, for Dr. A. W. Chase's Kidney-Liver Pills have made me well again. I will gladly answer any letters about this wonderful medicine."

25 cts. a box. All dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

DR. A. W. CHASE'S KIDNEY-LIVER PILLS.

POPULAR PUBLICATIONS—POPULAR PRICES

THE NEW-YORK WEEKLY TRIBUNE has for nearly sixty years been recognised as the People's National Family Newspaper, for farmers and villagers. Its splendid Agricultural Department, its reliable market reports, recognized authority throughout the country; its fashion notes, its Science and Mechanics Department, its fascinating short stories, etc., etc., render it indispensable in every family. **Regular subscription price, $1.00 per year.**

NEW-YORK TRI-WEEKLY TRIBUNE published on Monday, Wednesday and Friday, is a complete up to date daily newspaper, three days in the week, with all important news of the other four days. Profusely illustrated, and filled with interesting reading for all who wish to keep in close touch with news of the nation and world. **Regular subscription price, $1.50 per year.**

In connection with The Tribune we offer to those who desire to secure the best magazines, illustrated weeklies and agricultural journals, the following splendid inducements:

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

REV. MARTIN'S GRAVE.

Judge Beaver, Dr. Schuyler and C. P. Long View the Site.

At a recent meeting of the Huntingdon Presbytery Judge Beaver, of Bellefonte; Dr. W. H. Schuyler, of Centre Hall, and C. P. Long, of Spring Mills, were appointed a committee to have the old burying ground connected with the Presbyterian church located on the Musser farm, near Penn Hall, and erected in 1785, put into proper condition so that the old historic spot might be properly preserved. The committee Thursday of last week met and viewed the site. The only grave distinctly marked is that of Rev. Mr. Martin, which is covered with a marble slab with an appropriate inscription. The cheerful consent of Mr. Musser has been secured to permit needed improvements, which will consist of a neat iron fence to surround the plot, repair the walls of the tomb and put up a marker indicating the point of interest. The expense is estimated at $100.00, and the committee will be glad to receive contributions from any one interested.

So far as can be ascertained the first church building in Penn's Valley, perhaps in Centre county, was a log structure, erected in 1785, near Penn Hall, on what is now the Musser farm. It was built by the Presbyterians who held religious services in the Valley as early as 1775, Rev. William Linn preaching "the first sermon ever delivered within the present limits of Centre county, at Captain (afterwards General) Potter's," July 22, 1775. The name of the church was East Penn's Valley. The Rev. James Martin, the first settled pastor, was called April 25, 1789, and ministered to several congregations extending up the valley as far as Warrior's Mark. In the East Penn's Valley church the Presbytery of Huntingdon was organized April 14, 1795. Mr. Martin died June 20, 1795. In 1793 a log church was built at Centre Hill, and after Mr. Martin's death this became the chief center of Presbyterian worship and the Sinking Creek church takes the place of the East Penn's Valley church. Thus the Sinking Creek Presbyterian charge whose house of worship is now in Centre Hall is probably the oldest organized religious body in this county.

The old church on the Musser farm passed into the possession of the Reformed and Lutheran congregations and was used by them.—Centre Reporter.

Their Secret Is Out.

All Sadieville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whittaker, who had for a long time, endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough. It postively cures Coughs, Colds, La Grippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50c and $1.00 Trial bottles free at F. Potts Green's drug store.

—New diseases are discovered somewhat faster than old ones are cured. Of course the doctors must live.

New Use for Carnegie's Money.

From the New York Times.

A Denver clergyman, the Rev. C. M. Cobern, has an idea which merits consideration. He believes that the crying need of our wicked cities in saloons, with free lunch, music, vaudeville and everything attractive and agreeable except alcohol. Just what would take the place of alcohol is not stated. That potent fluid seems to have a function of its own in the social economy, and attempts to find a substitute for it have not been wholly successful. The man who can invent a drink which shall be equally satisfactory to the teetotaller and the convivial imbiber, leaving the one in the condition he prefers, putting the other into the condition he finds most agreeable, and harming neither, would be a public benefactor of the most remarkable character. This, however, is a detail.

The plan contemplates that Mr. Carnegie shall establish saloons of such magnificence and furnish therein such entertainment in the musical and variety line that saloons depending for their attractiveness upon alcohol and its various combinations would have to go out of business because of the lack of custom. The theory is a good one, and appeals to the imagination somewhat powerfully; but we are not sure that we are at the moment prepared to accept the conclusion that saloons of this character "would do more good than all the Carnegie libraries, although we can give more cordial and immediate assent to the confident statement of the Rev. Mr. Cobern that if he had access to the philanthropist's ear he "could tell him how to make a reputation which would last for all eternity." As his promptings would be along the lines of his public utterance, and would take the shape of a first-class saloon with musical and vaudeville accessories, we are confident it would give Mr. Carnegie great pleasure to talk with him.

CASTORIA.

Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

A Rare Sight.

A Galeton dispatch says persons in that vicinity have seen for the past few months a doe which frequents the woods back of the Henry farm and comes out each morning to graze with the cattle. It has become so tame that it can be approached within a few yards by the owner of the farm but upon any pretext to go between it and the woods, it immediately takes fright and bounds away. Several attempts have been made during the legal season for killing this game, to secure it, but as yet its haunt has not been discovered. It does not seem to be afraid of the trains which run in the immediate vicinity and will remain with the cattle even when sharp blasts of the locomotive whistle are sounded.

Foley's Honey and Tar heals lungs and stops the cough.

YERKES AND PALM!

Pennsylvania Democrats Nominate Their Standard Bearers.

IN CONVENTION AT HARRISBURG

Philadelphia Problem Assigned to Special Committee for Solution. A Delegate Wanted Philadelphia Contingent Expelled.

A RIOT NARROWLY AVERTED

HARRISBURG, August 16.—The Democratic State convention yesterday nominated Judge Harman Yerkes, of Doylestown, for Supreme Court Judge, and Representative Andrew J. Palm, of Meadville, for State Treasurer.

The platform makes no reference to William J. Bryan or national affairs, being confined entirely to State issues. In the closing moments of the convention resolutions were adopted without debate and by a practically unanimous vote, which will have the effect of blocking any effort that may be contemplated looking to the withdrawal of the candidate for State Treasurer and the substitution of an anti-Quay Republican and a fusion ticket.

The contest between the rival Philadelphia factions for recognition by the convention resulted in a harmony agreement between the recognized leaders of the two elements. A committee was designated to co-operate with ex-Governor Robert E. Pattison, chairman of the regular city committee, in adjusting the differences that may arise in reorganizing the party in Philadelphia. The action of the convention was indorsed in vigorous speeches by Mr. Pattison and ex-Judge James Gay Gordon, the leader of the Young Democracy of Philadelphia.

Following the ratification of the harmony program an effort was made by J. O. Ulrich, of Schuylkill, to expel the Philadelphia delegates. An assistant sergeant-at-arms tried to force Mr. Ulrich to take his seat and there was almost a riot. The police interfered and after much excitement the Ulrich resolution to expel the delegates was rejected. The decision of Chairman Keenan was appealed and was sustained.

Changes were made in the party rules whereby the State Executive committee is authorized to examine the rules of the city and county organizations, and Federal and State office-holders are made ineligible to the office of chairman or member of any Democratic district, city or county committee.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address

Hall's Family Pills are the best.

A Sad Accident.

SUNBURY, Aug. 16.—Wednesday evening D. F. Alleman and his sweetheart, Miss March, of Mahantango, were taking a walk on the P. and E. tracks at that point. In order to take a rest they sat down on the ties and after engaging in conversation both fell asleep. A freight train came along about 11:40 o'clock and struck them both.

Mr. Alleman was brought to the hospital at Sunbury with a broken hip and with severe internal injuries. His recovery is very much in doubt. Miss March's injuries are so severe that it was not deemed worth while to bring her to the hospital. Instead, she was taken to her home.

To Save Her Child.

From frightful disfigurement Mrs. Nannie Galleger, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by F. Potts Green druggist.

Not the Right Man.

The man who was arrested near Loganton Wednesday on suspicion of being Charles Hale, the man who escaped recently from jail in Lycoming county, was taken to Williamsport where he was placed in jail, but he is not Hale, the man wanted. He says his name is Charles Wilson. As soon as he arrived at the Williamsport jail it was seen that the prisoner was not Hale.

—Sunday morning while John Bell and family of Warriorsmark valley, were at church, robbers entered a side window of their home and completely ransacked the premises. They carried away with them about $34 in cash which was in several purses about the house.

Piecing.

That's a word which may not be in the dictionary in this sense of its use, but which is in very common use in some sections of the country. "She's always piecing" they say of the woman who runs to the cupboard at irregular hours and eats a piece of pie, cake, or some other dainty. This irregular eating is one of the chief causes of dyspepsia and "weak" stomach.

Diseases of the stomach and other organs of digestion and nutrition are completely cured by the use of Doctor Pierce's Golden Medical Discovery. It increases the supply of rich, pure blood, and gives the body vitality and vigor.

"A year ago I was feeling very badly," writes Mrs. Lizzie Abrams, of 158 Johnson Avenue, Brooklyn, N.Y. "Had a very poor appetite and when I sat down at the table I could not eat, but would have to go away without even tasting the food. Chancing to hear from a friend who used your 'Golden Medical Discovery' for a disease similar to mine, I thought I would give the medicine a trial, and I can hardly express the benefit received from it. The first dose seemed to do me good. My appetite returned and I was able to eat heartily. I have improved so much since taking the 'Golden Medical Discovery' I do not look like the same person. Am to-day well and strong—the result of taking six bottles of Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Lost Mr. Emerick Returns to His Home.

Mr. Samuel Emerick, of Rote, who was reported Tuesday as being lost on the mountain near that place, returned to his home at 4:30 o'clock Tuesday evening. Searching parties who had gone to the woods earlier in the day to look for the lost man were still on the mountain looking for him when he reached home. Later in the evening when the men concluded to give up the search until Wednesday and returned to the village they were agreeably surprised to find the man they had spent the day looking for safe at home.

Mr. Emerick, while picking berries on Monday, became bewildered and in a short time became convinced that he had lost his bearings. He walked through the woods until darkness came on Monday evening, when he laid down to rest. Tuesday morning he started again hoping to find some familiar trail that would lead him out of the woods. The lunch he had taken with him when he started from home was eaten at noon on Monday, and from that time until he reached home Tuesday evening he had nothing to eat but berries.

It was well on in the afternoon on Tuesday when Mr. Emerick came out of the woods near the Garrity farm, and struck the public road leading to Sugar valley. He was then within a few miles of his home. Although tired and very much exhausted by his long walk Mr. Emerick pushed on towards his home which he reached at 4:30 o'clock.

Old Age.

Old age as it comes in the orderly process of Nature is a beautiful and majestic thing. The very shadow or eclipse which threatens it, makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it dosen't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unnourished, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor" Its invigorating effects are felt by mind as well as body. It takes the sting from old age, and makes old people strong.

Arrested an Escaped Prisoner.

The prisoner Hale, who escaped from the Lycoming county jail over two weeks ago by climbing the jail wall, was arrested Wednesday morning near Loganton. Hale was seen near Heckman's farm by J. H. Overdorf. Overdorf wanted Hale to ride with him in his wagon to Loganton, but Hale refused. Overdorf then secured the services of Constable Fetterhoff, and the two men overtook Hale and placed him under arrest. The officers started with their man for Williamsport Wednesday afternoon. Hale is wanted for breaking into one of the stations at Williamsport.

Venerable Judge Dead.

Bay City, Mich., August 15.— Hon. Sanford M. Green, judge of the state supreme court from 1848 to 1858, died at his home here Wednesday aged 94 years. In 1843 Judge Green revised the Michigan state statues and his work stands unchanged to-day. Judge Green was a circuit judge for 34 years.

Goods for a far-Away Land.

Having underbid English competitors and got the contract, the Madden Boiler Works, of Hollidaysburg, has just finished making a large order of phosphate dryers that will be shipped via Singapore, to Christmas Island in the Indian Ocean, for use there.

BURNED TO DEATH!

Flames Destroy a Temporary Crib for Water Works.

Some Gallant Rescues Made by Boatmen Who Went Hurriedly to the Rescue—No Life Preservers Had Been Provided.

MONETARY LOSS WILL BE $200,000

CLEVELAND, August 15.—Five men were burned to death, four were drowned, three and perhaps four were suffocated and several injured as the result of a fire which destroyed a temporary water works crib two miles out in the Cleveland harbor early yesterday.

Twenty six men obeyed the order of Manager G. C. VanDusen when the flames broke out and took refuge in the water on floating pieces of wreckage. Four of them lost their hold upon their frail floats and sank beneath the waves just as help reached their comrades.

The crew of the tug J. R. Sprankle heard the fire whistle blown from the crib and raced to the rescue from the harbor. She picked up eighteen of the survivors who had drifted to the west of the crib on their floats of boards and wreckage.

VanDusen and three of his men were hanging in the water from a two inch line suspended from the crib. Just as the line was burning away above the men's hands a yawl boat from the barge Wilhelm, manned by two men, dashed into the veil of heat and smoke that enveloped the crib and rescued the four men on the rope at the risk of the boatmen's lives. The men picked up in the water were brought to this city on the tug Sprankle. They were naked, exhausted and badly burned. Many of them were cut by falling timbers.

The crib is a total loss. It was a frame building, 200x50 feet, the sides sheathed with iron. It contained valuable machinery. It is now a charred, shapeless mass of wreckage, and mingled with the blackened timbers are blackened, rusted and twisted pieces and plates of iron and steel. The crib and machinery were the property of Shailer & Schninglan, contractors. Their loss will exceed $200,000.

[illegible] great indignation yesterday when he learned that no boat or life preservers were provided as a safety measure by the contractors at the crib. He declares that the case would receive the closest investigation and that those found guilty of criminal negligence on the water would be prosecuted to the full extent of the law.

Late last evening Plummer Jones, of Warren, O., an employe of the tunnel contractors and one of a party of recuers, descended into the shaft to look for the missing men and was overcome by gas and expired in a few minutes. His body lies in the tunnel 75 feet from the bottom of the shaft and is covered with water. The life-line attached to the body became fouled and could not be pulled out.

David Kelly, another member of the rescuing party, was overcome by gas and is in a precarious condition.

Trammel—Murray.

A wedding which proved quite a social event in colored society in Bellefonte took place Wednesday evening at the A. M. E. parsonage in this place. The contracting parties were Mr. Howard Trammel and Miss Gertrude Murray, both of this place. The ceremony was performed promptly at 7 o'clock by Rev. C. N. Woodson in the presence of quite a number of guests. The groom was attended by Mr. Henry Williams as best man and Miss Maggie Valentine acted as bridesmaid.

After receiving the congratulations of their friends Mr. and Mrs. Trammel departed on the evening train for Virginia where they will spend their honeymoon at the home of the brides parents.

The Horse Ran Away.

Tuesday the Misses Snyder, daughters of Elias Snyder, of the east end of Nittany Valley, were driving from the home of County Superintendent W. A. Snyder at Salona, when the horse ran away. Both ladies were thrown out of the buggy, and were more or less bruised, but no serious injuries were inflicted. The horse tore himself from the vehicle, and was afterwards caught. The buggy was slightly damaged.—Lock Haven Democrat.

—Alexander Black, a well known Johnstown character for many years, but recently residing in Scalp Level, was found dead in a chair in his little shop in that place at noon Monday. Mr. Black had complained of pains in the region of his heart and this caused the physicians to decide that death was caused by neuralgia of the heart, brought on by drink and exposure. He was about 60 years of age and a tailor by trade.

—The net earnings of the Philadelphia and Erie railroad increased $37,925 during June, and $216,971 for the first six months of the year.

—The REPUBLICAN and New York Weekly Tribune one year for $1.25.

Children Must Attend School.

The new compulsory education law, passed at the recent session of the Legislature and now in effect, has made some important changes in this matter, which has been under discussion in the local board for the past year or two. The law has made some improvements in the requirements in the line of attendance.

The act makes it necessary for children between the age of 6 and 16 to attend school, not for 70 per cent. of the school term, but for the full term, excepting when detained by sickness or other good excuse. The time allowed for absentees in any four weeks has also been reduced and is now three instead of five days.

With regard to the arrest of pupils and parents the law is much more definite than heretofore. The act provides that habitual truants can be committed to a special truant school or any reform supported partly or in any part of the State, by an alderman, or justice of the peace, or released on bail for the criminal court to pass upon them.

The fine to be imposed upon parents for neglecting to send their children to school has been placed at $2 for the first offense and $5 for any subsequent offense. In default of payment they may be committed to jail for two days on the first offense and five days on subsequent offenses.

To insure the enforcement of the law, the act provides that the Superintendent of Public Instruction can withhold one-fourth of the State appropriation to a district which is not carrying out the provisions in a manner satisfactory to him. The burden of the enforcement is placed on the superintendent, secretary and attendance officer, and if they fail to carry out the various provisions they may be fined $25 for every offense.

REPUBLICAN COUNTY TICKET.

FOR PROTHONOTARY,
EDWARD C. McKINLEY,
of Bogg's Twp.

EDITORIAL.

"Judge Love is the recognized leader of the Quay forces in Centre county."—John Hamilton to the Republican county convention, July 30, 1901.

THE machine said Potter and Harris and the State Republican convention acquiesced with appropriate subserviency. The people are to be heard from later.

A SIBERIAN mammoth, which has been dead for 50,000 years, has been found with undigested food still in its stomach. This is scientifically regarded as a record breaker for indigestion.

THE time is not far distant when "Johnny will come marching home" to spend the rest of his days in peaceful rural pursuits on his own dung-hill at State College, which, we understand, he has named "Oleo Grange," in compliment to the trust he has so faithfully served. For love, do you ask? Well, hardly!

W. E. GRAY is quoted as follows: "I will down Dan Hastings yet in Centre county." To be sure stranger things than that have happened in politics yet we are disposed to believe that the political future in Centre county, and in Pennsylvania, judging from the signs of the times, is not chuck full of promise for such as Gray.

JOHN OLEO HAMILTON was in town Monday morning of this week and judging from the manner in which he *darted* from one opening to another—crossing muddy streets on a hop, skip and jump—there were a number of faces in town in which he could read no kindness. John was at one time considered an honest man, but, like the faithful old family horse who was scared by a black hog running out from under the fence, he can never again be trusted. John has been scared by the political pig and it requires a stiff bit to keep him in the straight and narrow road.

JOHN HAMILTON'S organ states that the nomination of the Republican candidate for prothonotary was a distinct stalwart victory. This is the first intimation we have had that factionalism was involved in the contest for this nomination. It is indeed unfortunate for the Republican candidate that John Hamilton has so little interest in the success of the county ticket that he must handicap the party nominee with factional disorders. We had hoped that the controversy over the convention resolutions would not involve the county ticket. In this it happens we are to be disappointed. Hamilton, smarting under the crushing repudiation he received at the hands of his fellow-Republicans, sulks in his tent and virtually says: To h—l with the county ticket. Is such a course in accord with his boasted Republicanism?

CENTRE county's three *distinguished* Johns—John G. Love, John K. Thompson, John Hamilton.

IF NOT TREACHERY AND DECEIT, WHAT?

We have been informed that W E. Gray, Esq., the chief assistant to His Honor Judge John Grumpy Love, "recognized leader of Quay forces in Centre county," is indignant over the brief reference in last week's REPUBLICAN to his *decidedly peculiar* line of action prior to and in the recent Republican County Convention. He emphatically denies the charge of treachery and deceit, so we are apprised, and has stated with equal force and impressiveness that the REPUBLICAN has grossly misrepresented him, and its accusations are not only mendacious and unwarranted but base and contemptible.

We have no desire to misrepresent Mr. Gray, or anyone else, for that matter, and if our interpretation of his conduct in relation to the recent harmony agreement between the Republican factional leaders is erroneous, we will gladly retract our statement of last week and correct any prejudicial—to him—impressions our declaration may have originated. But we are yet to be convinced of our misjudgment. We looked upon his active participation in the Hamilton scheme to organize the convention and control its deliberations as absolutely inconsistent, to express it mildly, with his agreement to unite his influence for party harmony and concord in the convention, and in the campaign to follow, and we regarded his *performance* in the convention as a complete repudiation of his compromise pledges, an overt act of treachery and deceit.

We still hold to these first impressions and if we are incorrect in our conclusions we have to say that we are not alone in our error, for the views we entertain of Mr. Gray's conduct prior to and in the convention, which must be admitted to have been unexpected and most surprising to those who believed him to be proof against the influence of that hypocritical machine sycophant, the oleo-besmirched Hamilton, of State College, are in accord with those of countless Republicans in the county who witnessed his perfidy, and many times that number—who have heard it recounted.

Mr. Gray, we understand, attempts to justify his conduct by insisting that the harmony agreement to which he was a party did not involve the question of organization of the convention nor the character of its resolutions. Such a defense is absurd and rediculous. What sort of a "harmony agreement" would it be that did not provide against a possible rupture over the organization of the convention and the passage of obnoxious resolutions?

Mr. Gray declared in the convention that the questions of resolutions and organization were not discussed at any of the compromise conferences in which he participated. We are not prepared to deny or support this declaration from a personal knowledge of the facts in the case, but we are informed and from a reliable source, that the question of resolutions *was* a subject under discussion at a conference held at Mr. Gray's home on Friday night before the primary elections and he was present and took part in the same, and we do know that in Mr. Gray's presence we agreed that the REPUBLICAN'S comments upon the convention should be, in the interest of harmony and factional good will, free from any expression that could be construed as exultation over an apparent success of the anti-machine forces. Is it likely that this condition would have been imposed and accepted if it had not been distinctly understood by those participating in the harmony conference, as well as those for whom they acted, that *no action* should be attempted that would tend to conflict with the efforts of the leaders to bring about an amicable convention and unite the factions for the fall campaign? Is it likely that the anti-machine leaders would have agreed, which they did, to an equal division of the delegates to the convention, in Bellefonte and in various precincts in the county where it was possible to carry out the compact, if they knew that they would be compelled to make a contest for organization and resist the passage of offensive resolutions?

Whether the questions of organization and resolution were discussed in Mr. Gray's presence or not, good sense and ordinary judgment, which it is supposed he possesses, undoubtedly embodied them in the compromise agreement, and if he had been sincere and earnest in his desire for party harmony and unity and faithful to his pledges, expressed or implied, he would *not* have been a party, active or passive, to the Hamilton-Thompson revolt against the efforts of an harmonious convention and a singleness of purpose at the polls in November.

The first definite information the anti-machine leaders received concerning a movement to oppose the "harmony agreement" was in the issue of Hamilton's organ, the College Times, on the Friday preceding the primary elections, which contained an editorial from Hamilton's pen, denouncing the "treaty of peace" and urging the election of W. E. Gray as chairman of the Republican County Committee. This editorial was used as a circular letter and sent broadcast throughout the county with primary election tickets bearing the name of W. E. Gray for county chairman. When this "flyer" of Hamilton's was brought to Gray's attention he denied any previous knowledge of it and emphatically stated that the use of his name by Hamilton was unauthorized and in strict opposition to his wishes. He on the following morning—Saturday—by telegraph and telephone, communicated with every voting precinct in the county that could be reached, and denied his candidacy for the chairmanship and added that under no circumstances would he accept an election. With this act, however, Mr. Gray's relations with the compromise movement ceased. What followed?

Hamilton came to town on Monday before the convention with blood in his eye and hay on his horns; with him was his boon friend and co-partner in corruption and conspiracy, John K. Thompson. Conferences were the order of the day and night in the local Quay headquarters—Gray's offices, with those of Judge Love and E. R. Chambers for auxiliary seances. The result was manifested in the convention the next day. Gray became a candidate for temporary chairman and assumed leadership of the Quay faction in the fight for resolutions. If this was not treachery and deceit, we do not know the meaning of the words. He broke faith and cast his pledges to the winds, and yet he had the nerve to stand before those whose trust he had betrayed and in clarion tones and with dramatic effect cry aloud for "fair play."

But it is all over. The anti-machine leaders did their best for peace and harmony and the machine leaders did what they could in a sneaking, underhanded, dishonorable way to defeat the effort. Mr. Gray's course has placed him in a position before the Republicans of Centre county, machine and anti-machine, which no explanation from him will improve. As for the treachery of his associates, identified with the compromise agreement, their actions were in line with their *principles*, and occasioned no surprise. We have said before and we repeat that W. E. Gray will reap his *reward* and as he did by others so will he be done by.

FRETTY soon Shaffer, the Amalgamated leader, if he don't watch out will take his place with Debs, Irons, and the rest of the long roll of those who have led labor unions to ruin through their personal inordinate ambition. Some of these days labor organizations will learn not to entrust their interests to flighty individuals whose only recommendation is a facile tongue. It is not likely to be, however, until after a bitter and disastrous experience.

WE always feel like "hollerin' scat," says the Anson (Tex.) Register, when we hear a man ranting against Protection without suggesting any better remedy than "Tariff for revenue only."

THE big 5 REPUBLICAN STATE CONVENTION.

The Quay-Penrose-Stone-Elkin-Durham State Republican Convention "pulled off" its meeting in Harrisburg yesterday as advertised, and from a machine point of view it was highly successful and uniformly harmonious. The pre-arranged program for the convention was put through without a hitch, punctuated, according to the reports by machine press agents, with tumultuous applause and wildest enthusiasm.

The convention, M. S. Quay et al. sole owners and proprietors, ratified the re-election of Mr. Quay to the United States Senate, but forgot to pay proper tribute to the Democratic and Republican traitors and scoundrels whose purchased votes accomplished the act.

It lauded the administration of Mr. Quay's own governor and pointed to his works and achievements of his administrative policies to date, as without a parallel in the history of this or any other Commonwealth, the truth of which none will dispute and all will hail as a well merited recognition.

It extolled the service of the recent Legislature, commended its raids upon the public treasury; applauded its abuse of legislative authority; eulogized its abrogation of people's rights and municipal privileges in "ripper" and franchise enactments; praised its courage in appropriating $4,000,000 in the face of public opposition, for the completion of the State Capitol building, the payment of machine obligations and the re-imbursement of machine campaign contributors, and characterized it in general as the most intelligent, tractable and best controlled legislative body that ever swore to uphold and obey the constitution and legislate wisely and in the interest of the people, the commonwealth and her institutions.

The single commendable act of M. S. Quay & Co.'s convention was its endorsement of the National administration and its tribute to the statesmanship and the wise and beneficent policies of President McKinley. This action of the convention merits the approbation of Pennsylvania Republicans, independent of factional lines, and will therefore receive unanimous ratification.

As for the State ticket nominated little need be said. The convention merely confirmed the choice of its sole owners and proprietors. For Supreme Court Justice, William P. Potter, of Pittsburg, was nominated. Mr. Potter is at present a member of the Supreme bench by appointment of Governor Stone, whose law partner he was at the time of his selection for judicial honors. The service he is said to have rendered the machine in connection with the Supreme Court's disposition of the Pittsburg "ripper" bill, no doubt was anticipated when Governor Stone selected him for the vacancy on the bench occasioned by the death of Chief Justice Green, and was equally potential in securing him the nomination for a full term. For State Treasurer, Frank G. Harris, of Clearfield, was named. Mr. Harris is one of the machine's most faithful allies. He knows no law but that of servile obedience to the will of the Gang. He has truly earned the nomination he received yesterday at Harrisburg and it may be regarded as a reward for services rendered and a payment in advance for what will be required of him in the future.

Concerning the fitness of the nominees for the positions they will strive to attain and their ability to discharge the important duties attached to these official posts, perhaps the least said the better. The question of "fitness" never enters into the selection of public officials by the machine except in so far as it applies to machine service and requirements. The ticket is a representative machine one and as such must commend itself to every faithful and loyal subject of its creator.

THE management of the Mt. Gretna Exposition must have been at their wit's end for orators when they asked Ben Tillman, of South Carolina to address the Pennsylvania farmers at Mt. Gretna park on the 21st.

JOHN "OLEO" HAMILTON.

One of the echoes of the Republican County Convention is to the effect that the Honorable John "Oleo" Hamilton publicly lamented in a "council of consolation," held at the Bush House after the adjournment of the Convention, that he had not had about two weeks more in which to develop his campaign against General Hastings and the insurgent forces. "Then," Oleo John is said to have remarked, "I would have cleaned 'em up and wiped 'em out of existence."

We fear our "extinguished" friend from State College and Harrisburg does not realize what a contemptuous thing he is in the eyes of his fellow citizens in Centre county, notwithstanding the hint that was so forcibly brought to his attention in the convention, and right here let us say that never before in the political history of Centre county did a convention administer such a crushing rebuke, such a merited repudiation as did the Republican Convention of 1901 to John Hamilton, of State College, and excepting a few of his own kind, the unanimous opinion throughout the county is that "he deserved all he got and got less than he deserved." The value of Hamilton stock in Centre county can, therefore, be easily reckoned.

The citizens of Centre county in general and the Republicans in particular have not forgotten nor are they likely to forget that but a few years ago John Hamilton figured in county politics as one of the most persistent and bitter denouncers of Quay and Quayism. In county conventions and in political meetings he seized every opportunity offered him to deliver his hackneyed speech about the "one man power" of Quay and the corruption in his political system. One of his favorite boasts was "I wear no Quay collar and I never will"—conditions are different today it will be observed. Another was: "If Quay presented himself at my door I would not allow his polluted and corrupt carcass to cross the threshold of my humble home"—we opine that the fatted calf would be killed and the humble home festooned with garlands if Quay would present his "polluted and corrupt carcass" at Hamilton's domicile these days.

When Governor Hastings in 1895 plucked Hamilton from rural obscurity and made him Deputy Secretary of the State Department of Agriculture, he merely transplanted the anti-Quay demogogue from Centre county to Harrisburg and there he rode his hobby and railed against Quay and his machine syndicate with the same force and vehemence that characterized his anti-Quay crusade at home. Time passed and with its flight the end of the Hastings' regime fast approached.

It was during the latter part of the Hastings term that Hamilton experienced a change of heart politically. He grew to love the glamor of official life and its emoluments were the forces to which his principles and self-respect surrendered. He inaugurated and prosecuted a system of intrigue against the then Secretary of Agriculture, Colonel Edge. He resorted to all manner of means to discredit the Secretary before Farmers' Institutes, and with those whom he knew would be in power when Hastings retired. He had, so to speak, fastened his eye upon the Secretaryship and he pledged himself to gain the prize at all costs. He stopped at nothing. He sacrificed his principles. He trampled his self-respect underfoot. He delivered himself soul and body to the very political boss he had for years reviled and opposed. All this he did and more, but he received his *reward*. He was made Secretary of Agriculture by Governor Stone.

Every body knows of his reprehensible association with the "Oleo" frauds. The scandal that followed the disclosures establishing conclusively a collusion between the department of Agriculture and the bogus butter makers and dealers brought upon him the most severe and blasting public condemnation ever directed against a public official in the history of the Commonwealth.

Perhaps he was the scape-goat for his machine masters and is more sinned against than sinning, but he selected his bed with his eyes open and he knew when he accepted the Agricultural portfolio from Governor Stone that he surrendered his liberty with his self respect. He was bought for service and the machine made no mistake when they accepted his terms. A more abject, debased, subservient, machine puppet than John Hamilton Secretary of the State Department of Agriculture is not to be found.

John Oleo Hamilton will have an opportunity next year to test his *popularity* and *influence* in a contest in Centre county. We welcome him among the *leaders* of the opposition. His personality in a contest among the Republicans of the county will make our victory the easier to gain.

THE GOVERNMENT SHOULD TAKE A HAND.

There is an impression gaining ground in government circles, states a Washington authority, that sooner or later the government must adopt some measures for the regulation of strikes which will, to some extent at least, prevent the undoing of so many "uninterested" people. Sometimes it is the employer whose methods carry ruin and disaster to thousands, and sometimes it is the strikers; whichever it is, the result to outsiders is the same. Two instances are now before the public showing the incalculable injury and loss to thousands in nowise connected with the troubles provoking the strike but whose interests, it may be said, are entirely involved in the controversy:

In California, the Longshoremen's Union has tied up the means of transportation just at the time when the fruits, whose value is so enormous, are about to come into the market. The fruit growers have been to all the preliminary expenses of raising their crops and now see them rot on their hands on account of a labor quarrel with which they have nothing whatever to do. In the East the Steel trust is dismantling its mills in various cities and towns, crippling the community for years to come and bringing ruin to thousands of people who directly and indirectly minister to the wants both of the mills and of the strikers.

These are but two illustrations but they are all sufficient to show that the time has about come for the government to take a hand in these labor disputes and devise means for the regulation of strikes, which will protect the interests of those who are made to suffer through the selfishness and arrogance of the employer or the unreasonableness and vindictiveness of the striker. One or the other is always at fault, and not infrequently both, nevertheless each should be made amenable to some law governing their "labor troubles" and the sooner such a law is enacted the better. Let us hope that the impression which is said to be growing in Washington, that something sooner or later must be done, will speedily culminate into a vigorous movement in that direction.

AN exchange wanted to know what is to be done with the loose surplus of money in the United States Treasury and the Sparta (N. C.) News stepped to the front with the following suggestion: "Turn the Democrats to it. They never fail to use the surplus. In 1892 they found a full treasury and in less than three years it was empty and they issued $262,000,000 in bonds to run the government." Let us add that it was the Republican party under the incomparable leadership of President McKinley who redeemed those bonds and replenished the national treasury. Don't let that thought escape you when your mind is politically bent.

DESPITE the great out-cry China made about its inability to pay its indemnity obligations, it seems to have found no difficulty in securing a million or so with which to erect a legation building in Washington that will be bigger and finer than anything in the city.

—The REPUBLICAN and New York Weekly Tribune one year for $1.25.

A HEALTHY WOMAN.

Mrs. Clara Makemer, of The Florence Crittenden Anchorage Mission, Chicago.

Mrs. Clara Makemer, formerly with the Christian Medical Hospital and Dispensary, of Chicago, and present housekeeper for the Florence Crittenden Anchorage Mission, of Chicago, writes the following letter from 502 Chestnut street, Chicago:

The Peruna Medicine Co., Columbus, O.:

Gentlemen—Peruna is the best tonic I have ever known for general debility—a sure cure for liver complaint, and a never-failing adjuster in cases of dyspepsia. *I have also used it in cases of female irregularities and weak nerves common to the sex, and have found it most satisfactory. For almost any internal trouble Peruna is an ideal medicine chest.*

Mrs. D. Finlay, Petoskey, Mich., writes: "I never was better in my life than I am now. Peruna has cured me. I was fifty-seven years old last Friday and don't feel as if I could be more than twenty. *I was sick for five long years, I doctored all the time. Nothing helped me permanently until I heard of Dr. Hartman and his medicine and he cured me.* I had been so sick, suffered almost death, vomiting three or four times daily, no strength, not able to walk, and now for one year and a half I have been a well woman. People are surprised to see me so well. I tell them that Dr. Hartman cured me with Peruna."

For all of that class of disorders known as female diseases, Peruna is without a rival, because it strikes at the source of these diseases. Peruna produces clean, healthy mucous membranes, without which no woman can be strong or beautiful.

"Health and Beauty" sent free to women only, by The Peruna Medicine Co., Columbus, Ohio.

MEN AND AFFAIRS.

Another Dickens is to come for his first visit to America. This is Henry Fielding Dickens, sixth son of the great novelist. He and his two daughter will sail August 15, landing first in Quebec.

Edwin Westcott, the author of "David Harum," had an exceptionally rich and mobile baritone voice and might have attained eminence as a singer.

Of the convicts in the Kansas penitentiary seven are women serving time for murder. One has a 40 years' sentence, another 30 years.

A dispatch printed in Paris represents Tolstoi as saying to a friend, after his late dangerous relapse: "I seemed to be slipping softly but surely into beatitude." The pain was in coming back to life. This same experience has been remarked by people resuscitated after practical drowning.

At Deepwood, Nev., Louis Dorsey is buried in a coffin incased by 12 inches of solid stone, which makes it air-tight. On the top is a revolving stone, cut in the shape of a Bible, which in turning reveals a glass pane. Through the pane the embalmed body of Dorsey is visible. It still preserves the apparent freshness of life.

Wasps Interrupted Wedding.

A large congregation assembled in the little school house at Spring Hill, near Susquehanna, Pa., on Sunday, to witness the marriage of a young couple, after the regular service. Rev. Elkarah Swift, the preacher in charge, had an old silk hat that had been stored in a loft. At the instance of his wife he took the hat to the school house. At the close of the service a deacon picked up the hat to received the offering, when scores of wasps emerged from the recesses of the hat and instantly attacked the congregation. The preacher was the first person to escape. He was closely followed by the deacon, while the remainder of the people fled through the door. Few escaped the stings of the angry wasps, which had made a nest in the hat. The marriage of the young people took place at the bride's home in the evening.

Will Not Accept.

Prof. E. M. Brungart, of Rebersburg, who was recently elected superintendent and Mrs. Brungart matron of the Orphans Home at Sunbury have declined to accept the position. Prof Brungart holds a very good position as principal of the Cross-fork High School, and concludes that the chances for advancement are better in Potter county than they would be from the Odd Fellows institution.

—James J. Callan, who attempted suicide Wednesday morning at his home in Altoona, by shooting himself in the head, is still alive. His condition is unchanged and his case is puzzling the physicians. Friday morning an X-ray photograph was made of Callan's head in an effort to locate the ball. The negative was developed by Dr. Horace Smith and shows the ball to be located in the brain near the back of the head.

WASHINGTON LETTER.

From our Regular Correspondent.)

WASHINGTON, Aug. 22, 1901.

European press comments upon American policy or what the European editors regard as such are always more or less amusing, but those cabled over alleging that the present revolution and war between Columbia and Venezuela,-it seems to be a combination of both, has been instigated by the Government of the U. S. for the purpose of opening the way for an excuse to take forcible possession of the Isthmus of Panama, are more than amusing; they are ridiculous. The European editors write of the gathering of great fleets of American warships on both sides of the Isthmus, when, as a matter of fact their isn't a single warship within ten day's sail of either the Atlantic or the Pacific side of the Isthmus, and only three, two small vessels and the battleship Iowa, have been ordered to Panama waters, and neither Secretary Hay, nor acting Secretary Hackett, both of whom are familiar with the situation on the Isthmus, has any idea that either of them will have any serious work to do after they get there, which will probably not be before the first week in September. Publications in our own yellow journals, are in a measure responsible for the misinformation of European editors. Our own people know how much their wild statements are worth; the Europeans do not.

The latest story about the Schley court of Inquiry, alleging that the Navy Department would not furnish Schley with a list of its witnesses, was remarkable only for the ignorance it showed concerning the methods of the Department. It is the invariable rule of the Department to furnish the officer who asks for a Court of Inquiry with a list of the witnesses summoned by the Department, as soon as it is fully made up, and the rule will not be departed from in the Schley's case. Schley's three lawyers were at the Department Monday, and submitted to Acting Secretary Hackett, a complete list of the witnesses chosen by Admiral Schley.

Hon. Thomas H. Carter, Ex-Senator from Montana, and Ex-Chairman of the Republican National Committee, who is now at the head of the U. S. Commission for the St. Louis exposition, has been in Washington several days, in company with ex-Gov. Francis, of Missouri, who is at the head of the exposition organization, looking after the foreign interests of the Exposition, and the forwarding through the Department of State of the President's proclamation, inviting the participation of all nations in the Exposition. Speaking of the matter, Mr. Carter said: "The President will issue the proclamation in a few days and the great exposition will then be officially inaugurated. Everything promises that the St. Louis Exposition will eclipse anything of the kind held in the world. Close study of the best points of every International Exposition has been made and the best features of each adopted. There will be a wealth of original conceptions and a magnificence of detail, together with a general world representation, which will make the Louisana purchase exposition worthy of the new century and of the great territory, the acquisition of which has added so much to the wealth and prestige of the country."

The Mortality From the Hot Wave.

Now that the returns are all in we can form some estimate of the deadly effects of the recent hot weather. As one journal has remarked, the newspapers during that never-to-be forgotten period contained lists of the dead and prostrated that looked like reports from some great battle. The Literary Digest has collected the returns.

The death list for the country at large contains the names of more than 1,500 persons. Of these more than one-half (about 800) occurred in New York city alone. Philadelphia came next with considerable more than 200. Boston and New England lost 100, Pittsburg 100, Baltimore 90, Newark 75, Jersey City 40, St. Louis 35, Chicago 30, Cincinnati, Cleveland and Washington 20 each, and so on in diminishing numbers in smaller or cooler cities and towns.

It is a remarkable fact that most of the suffering was in the north. The southern cities were comparatively comfortable, and one newspaper in New Orleans invited northern people to come to that city to escape the heat. A Boston paper at the same time reminded us that "at eleven miles up it is eighty-eight below zero." Both suggestions were lacking in practicability.

It is well to remember that we are still in the midst of the summer, and while we are not likely to have another such phenomenal "hot wave," we are still destined, doubtless, to have the weather uncomfortably warm. As a people we have not yet learned to endure our hot summers. Our houses, our clothing and our habits are not suited to them. It remains a grave problem in hygiene how to meet these emergencies, and this appalling death list of 1,500 should be regarded in a measure as a reproach to our collective recklessness.

Certain it is that the burden of toil and poverty should be lightened at such times by all the devices that can suggest themselves to a humane but too strenuous civilization.—Philadelphia Medical Journal.

Monkey Beat the Cobra.

From the Lahore Tribune.

A monkey and a cobra fight was witnessed by some persons a couple of days ago, about a mile or two up the Obsoor road at Bangalore. A large monkey disturbed a large cobra, which was basking in the sun about a hundred yards from the road. The infuriated reptile gave the monkey chase, but he took the matter easy till he got to a rock. While perched there the snake, who had been in close chase, reared up almost to full length, and with open hood darted at the monkey. But the latter dodged and ducked on the defensive and allowed the reptile to strike forcibly each time against the stone. This went on for a considerable time till the snake lay out at full length, bleeding and exhausted. Then the monkey seized the snake, and rubbed its head clean off the trunk, and afterward climbed a tree, when the persons who had witnessed the interesting encounter treated the victor to Indian corn and sugar cane.

—One thousand horses in Schuylkill county are suffering from fever.

A LETTER FROM CAMP.

How the Boys of Co. B Are Faring at Camp Peter D. Perchment.

CAMP "PETER D. PERCHMENT,"
SOMERSET, Aug. 19, 1901.

EDITOR REPUBLICAN, Bellefonte, Pa.:

Perhaps some of the good people of Bellefonte would like to know how their soldier boys are getting along and in what kind of camp they are making their temporary home. When the detail from Co. B reached Somerset everything was in a bustle; the people of the little town were up and doing everything in their power to make the boys at home. It was beautifully decorated with flags and bunting.

The camp is situated on a slope which overlooks a most magnificent piece of scenery. It was not long after the detail reached these beautiful camping grounds until hundreds of tents had been put up, which looked like a city built of marble.

The Regiment arrived in Somerset at 3:30 on Thursday morning and at once marched to the camping grounds near the Highland Inn, which, without a doubt, is the best ground in the whole camp site. The land slopes gently through the whole regiment and the hospital is on the highest point. All the men were very tired from their long night's ride and their hard day's work, and long before the hour set for taps the regiment was quiet and there was none of the first night's fun as is the custom.

The camp opened formally at 7 o'clock Saturday; the ceremony was made one of impressiveness so far as the regiment was concerned. The whole command being massed in the regimental street, stood at the uncover while the national air was played, and then the general order regulating the routine of the camp duties was read. The regiment was dismissed at the conclusion of the ceremony and the regular work of the encampment taken up. The event of the day proper was guard-mount, which is held at 1 p. m. instead of at 8:30 a. m. as formerly.

Camp is now opened; it is "drill, drill, drill," from morning until night and so the time is going by, and the men are beginning to show the effect of the change in their habits and manner of living.

There is as yet no sickness in camp. Co. B being from Bellefonte and vicinity is, of course, of most interest to the REPUBLICAN readers. The company had its tents up first, and at least three good soldier meals before the other men had anything to eat. The company lies on the top of the slope, near the road and hospital, and is the most desired point in the camp. Co. B is always at the head, and why shouldn't it be with such men as we have in command.

The company proceeded to initiate its new members last night by the customs dear to the heart of the old soldier when he gets a rookey into his clutches. The board and other methods were brought into play and all the new men made acquainted with the methods of the soldier for enlivening the routine dullness of a camp.

Co. B acted as Provost Guard at Somerset one day.

Yesterday was a grand day here and many thousand people took advantage of it and visited the camp. Today is Inspection of the books and papers of the regiment; Col. W. Fred Reynolds was the inspection officer. It was also guard-mount inspection, Col. Penny being inspection officer. Co. B. made the best showing with its books and papers, and the boys on guard are making a fine showing. Sergeant Clarence Daley is sergeant of the guard, and Corporal Wm. Brown is in charge of the squad at the guard house. Two better men in the company could not have been selected for these positions on this day of all days. Corporal Charles Newcomer as commissary could not be beaten. He is one of the best men in that position the company has ever had. The boys get lots to eat and have no reason at all to offer the least complaint.

Taking it all in all, this is the best camp Co. B has ever been in, and the boys all hope they can return here again next year.

We will return to Bellefonte either Saturday night or Sunday morning.

R. T. B.

TO DOUBT THIS.

Is to Disbelieve the Evidence of Your own Senses.

It's Bellefonte proof for Bellefonte people.

It's local endorsation for local reader.

It will stand the most rigid investigation.

Mr. A. B. Steel of North Spring St. says: "I have never had a bad back since I used Doan's Kidney Pills in 1896 I procured them at that time from F. Potts Green's drug store and used them, but I have never had any occasion to use them since. I was so bad with lumbago or soreness across my kidneys that I had to play off work, I was hurt at a barn raising some years ago by a heavy timber swinging and striking me in the back. After that whenever I took cold it always affected my kidneys. This was the case for years but Doan's Kidney Pills finished all that suffering. I can speak as highly of this valuable preparation now as I did then."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

—Prof. Brewer, of Yale, thinks the two minute harness horse will be common in the near future. We would like to have a stack of 'em to play right now.

PROFESSOR J. ANGEL,

—(AN EXPERT)—

EYE SPECIALIST

Late of NEW YORK CITY,

with headquarters at 32 W. 4th St., Williamsport, Pa., will make regular monthly visits to Bellefonte to establish both a good business and reputation. Your newspapers will announce my coming from time to time. My specialty is to prescribe and furnish special Glasses to relieve Headache, to strengthen weak eyes and to give clear vision to defective eyesight. I studied and graduated abroad, and have 15 years' experience. I guarantee good results in every case.

I will offer special inducements and very low prices all of this year to those who need attention of the eyes, to advertise my results and ability. Invalids and those who cannot conveniently leave their homes can be examined at home by appointment without extra charge. Reading glasses $1.00 per pair and up; frames 50c and up

Will be at the Bush House Monday & Tuesday, Aug. 26-27

hours from 9 a. m. to 8 p. m. aug 15-tf

28TH ANNUAL

ENCAMPMENT

AND EXHIBITION

OF THE

Patrons of Husbandry of Central Penn'a.

TO BE HELD IN

GRANGE PARK, CENTRE HALL

DURING THE WEEK OF

September 16th to 20th, 1901,

Encampment will open Saturday, Sept. 14th.

LEONARD RHONE, - - - - - - - Chairman.

Educational Meetings.

Directors and Teachers of Centre County.

I have arranged for six educational meetings during the early part of the current school term. These meetings can be beneficial to all who attend them. I therefore ask all teachers and directors to be present at the times and places as noted below. One session of two or three hours will be held at each place. Questions pertaining to school work, to recent school legislation etc., will be discussed. Local institute work will also be arranged.

TIMES AND PLACES FOR MEETING.

Miles, Haines, Penn, Gregg, and Millheim, at Millheim, Friday evening, Sept. 6th.

Centre Hall, Potter, Harris, College, Ferguson, and State College, at Boalsburg, Saturday, Sept. 7th.

Bellefonte, Benner, Spring, and Walker, at Bellefonte, Saturday, Sept. 14th.

Philipsburg, Rush, South Philipsburg, Snow Shoe, and Burnside, at Snow Shoe, Friday evening, Sept. 20th.

Taylor, Worth, Huston, Half Moon, Patton, Union, and Unionville, at Unionville, Saturday, Sept. 21st.

Liberty, Curtin, Marion, Boggs, Milesburg, Howard and Howard, Boro, at Howard, Saturday, Sept. 28th.

The day meetings will convene at 9 o'clock, and the evening sessions at 7.30. Teachers and directors will call the attention of those interested, to these meetings, and ask them to be present.

All be on hand at the appointed time.

Very respectfully,

C. L. Gramley, Co. Supt.

August 20, 1901.

The Trysting Oak in "Ivanhoe."

Some time ago the old trysting oak in Harthill walk, so frequently mentioned in "Ivanhoe," was felled to the ground in order to preserve the trunk. The tree was one of the oldest in England, and is described by Scott as being venerable when seize was laid to the castle of Torquilstone. The tree stood on the estate of the duke of Leede, whose agent, Mr. Mozey, is devoted to Scott. By his instructions the tree was taken down, and the trunk will be preserved on the lawn in front of Mr. Mozey's house. A young oak tree is to be planted by the duchess of Leeds on the site of the trysting tree. At the ceremony some interesting information will be given regarding Scott's connection with the neighborhood, which he so vividly describes in the pages of "Ivanhoe;" and the sites of Torquilstone castle, Rotherwood, and Codmanhurst will be located. Several places lay claim to the honor of having suggested Torquilstone—notably the castle of the Salvins, at Thorpe-Salvin, in Yorkshire, and Castle Hill Farm, an old farm house in Whitwell, Derbyshire, and the old Manor House at Todwick, in Yorkshire. Thorpe-Salvin castle is mentioned in the novel most probably under the pseudonyme of Rotherwood, while Copmanhurst is believed by many to be identical with St. John's church, Throapham. However, these and other questions wilbe settled when the ceremony above alluded to takes place.

—James Kennedy, an aged citizen of Boalsburg, died at his home in that place Sunday of old age. He was 75 years of age and is survived by a wife and several children. The funeral party passed through here this morning on their way to Alexandria, Huntingdon county, where the interment took place this afternoon.

—Mrs. Charles J. Reilly, wife of the well known attorney and politician, of Williamsport, is suffering with a peculiar affliction which she believes is the result of being poisoned by jellyfish while bathing at Atlantic City a few days ago.

SHERIFF'S SALE

By virtue of a writ of Levari Facias issued out of the Court of Common Pleas of Centre county, Pa., and to me directed, there will be exposed to Public Sale, in the Court House, in the Borough of Bellefonte, Pa.,

MONDAY, AUGUST 26th, 1901,

at 10:30 a. m.

All that certain Tract of land situate in the county of Centre and State of Pennsylvania, surveyed September 6th, 1794, in the Warrantee's names of Hugh Dalton, George Dalton, James Dobson, Samuel Dobson and a portion thereof in the warrantee name of Joseph Dobson, bounded and described as follows, to wit: Beginning at the Stob Hill Maple being the South west corner of the James Dobson warrant, and about seventeen hundred and fifty feet south from Big Sandy Creek along the west line of the said James Dobson warrant (said point of beginning is located in reference to the "Two Sugars."). Beginning at the "Two Sugars," thence South 86 degrees, 15 East 8701 feet to a white oak of 1794; Thence 84 degrees 50 minutes East 5305 feet; Thence South 85 degrees East 5451 feet; Thence North 4 degrees 50 minutes East 8197 feet to the above mentioned "Stob Hill Maple," the place of beginning; Thence North 4 degrees 45 minutes East 3710 8-10 feet to a white oak corner marked in the year 1794; Thence North 5 degrees 4 minutes East 4355 to a post and stones corner on line between the Warrants of Jeremiah Parker and Hugh Dalton; Thence by a line dividing Warrants of Jeremiah and William Parker, on the North from Hugh and George Dalton, on the South 85 degrees East 10,569 to a white oak marked in the year 1794; Thence South 5 degrees West 4356 to a post; Thence South 5 degrees West 3712 5-10 feet to a white pine marked in the year 1794; Thence still South 5 degrees West 500 feet; Thence North 85 degrees West 5208 to the line dividing the Warrants of Alexander J. Dallas and Joseph Dobson; Thence by said line North 5 degrees East 500 feet to corner of James Dobson, Samuel Dobson, Joseph Dobson and Alexander J. Dallas, Thence by the line between James Dobson and Alexander J Dallas, North 85 degrees West 5280 feet to the "Stob Hill Maple," the place of beginning; containing 2016 acres more or less, being the same premises which the Lehigh Valley Coal Company by their deed bearing date the first day of March A. D. 1895, and intended to be recorded in the office for the recording of deeds in and for the county of Centre remised, released and quit claimed unto the Beech Valley Coal and Iron Company, its successors and assigns, Thereon erected Ten or more Dwelling Houses Blacksmith Shop and other buildings.

Seized, taken in execution and to be sold as the property of the Beech Valley Coal and Iron Co.

CYRUS BRUNGART,
Sheriff.

NOTICE OF DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the partnership heretofore existing between Josephine Cruse executrix, and Charles H. Cruse, doing business as cigar manufacturers and conducting cigar store at Bellefonte, Pa. was dissolved on the 10th. day of August, 1901. by mutual consent.

All debts owing to said partnership are receivable by W. E. Gray, Attorney, Bellefonte, Pa. to whom also all claims, and debts against the same are to be presented for payment.

W. E. GRAY, Attorney, Bellefonte, Pa.
JOSEPHINE CRUSE, Executrix,
CHARLES H. CRUSE, Bellefonte, Pa.

This is to give notice that I have purchased the cigar store, and cigar factory of A. J Cruse, Bellefonte, Pa. and will in the future conduct the cigar business at the same place, upon my own responsibility.

CHARLES H. CRUSE.

COURT PROCLAMATION—Whereas the Honorable J. G. Love, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the county of Centre, having issued his precept, bearing date of the 1st day of Aug., 1901, to me directed for holding a Court of Oyer and Terminer and General Jail Delivery and Quarter Sessions of the Peace in Bellefonte, for the County of Centre and to commence on the 4th Monday of August, being the 26th day of Aug., 1901, and to continue one week. Notice is hereby given to the coroner, justice of the peace, aldermen and constables of said County of Centre, that they be then and there in their proper persons, at 10 o'clock in the forenoon of the 26th, with their records, inquisitions, examinations, and their own remembrances to do those things which to their office appertains to be done, and those who are bound in recognizances to prosecute against the prisoners that are or shall be in the jail of Centre county be then and there to prosecute against them as shall be just,

Given under my hand, at Bellefonte, the 1st day of August, in the year of our Lord 1901, and the one hundred and twenty-fifth year of the independence of the United States. CYRUS BRUNGART, Sheriff.

Central Hotel and Restaurant

S. O. WATTS, Proprietor.

Bar furnished with Choice Wines, Liquors, and Cigars. The Hotel has been Refurnished and Refitted Throughout.

Pool and Billiard Room. First-Class Livery Attached

Electric Light, Steam Heat and Telephone. Street cars stop at door.

Corner Main and Crown Sts., LOCK HAVEN, PENNA.

Additional Locals.

—Free delivery service has been ordered established at Gettysburg, to begin November 1.

—One additional letter carrier is to be appointed at Wilkes-Barre, to begin work October 1.

—The Methodist, Lutheran and Reformed congregations of Salona held a union picnic at Hecla park Tuesday.

—The Sacred Heart Catholic church at Lancaster will be dedicated on September 22, and Bishop Shanahan will officiate.

—Master Calvin Wetzel is the proud possessor of a baby brother, which is a new arrival at the home of Lewis Wetzel on Seventh street.—Philipsburg Ledger.

—The state veterinary surgeon is in Sugar Valley to examine the farmers' cattle with the view of ascertaining whether any are affected with tuberculosis.

—James, the six year old son of Michael and Julia Conley, died Thursday morning at 4 o'clock of diphtheria. The funeral occurred Thursday afternoon. Interment in the Catholic cemetery.

—Bellefonte's population received an increase of one by the arrival of a pretty baby girl at the home of Mr. and Mrs. Joseph Twitmire Wednesday morning. Congratulations are now in order.

—A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two one dollar bottles of Foley's Kidney Cure effected a permanent cure." All druggists.

—The Renovo council has granted permission to the Renovo Edison, Light, Heat and Power company to establish a steam heating plant in that place and to have the use of the streets for their pipes,

—A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. It's guaranteed. All druggists.

—Miss Maud L. Harris, daughter of Mr. and Mrs. Samuel D. Harris, of Mill Hall will be married to Rev. H. W. Hartsock, of Altoona, on Sept. 12. The ceremony will take place at Miss Harris' home at 8 o'clock p. m.

—Mr. Daniel Bantz, Otterville, Ia., says: "Have had asthma and a very bad cough for years, but could get no relief from the doctors and medicines I tried until I took Foley's Honey and Tar. It gave immediate relief, and done me more good than all other remedies combined." All druggists.

—The attendance at the Logan picnic at Hecla Park Wednesday was not as large as in former years but the day was an ideal one for an outing and everything passed off very pleasantly there being plenty of pleasure and amusement for all present.

—Farmers who have been herding their cattle in Brush Valley narrows, about nine miles from Loganton, have suffered losses by their animals dying. The disease is a strange one. It attacks the cow and kills it quickly. About thirty have died. A specialist has been sent for to make an investigation.

—Myrtle Shay, the fifteen year old daughter of Solomon Shay and who was employed in the match factory here, died at her parents' home at Tangletown, near Milesburg, on Wednesday night of diphtheria. She was buried Thursday afternoon at Curtin's. Only one other case of diphtheria is reported in that same community.

—High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney Cure will prevent Bright's disease and all other kidney or bladder disorders if taken in time. Be sure to take Foley's. All druggists.

—The Ladies' Aid Society of the Methodist Episcopal church will hold a Railroad Social in the lecture room this Thursday evening, Aug. 22nd, at 7:30. Orders for excursion tickets to Laughland and return will be on sale by specially appointed agents next Tuesday for the small sum of 5 cents each. An attractive bill of fare will be part of the program. An unusual lot of fun is promised.

—The blue rock shoot held at Hecla Park on Wednesday afternoon was participated in by Messrs Gettig, Gerberich, Knisely, Woodring, Jackson, Rightnour, Hunter, Trafford, McGinley, and Meek. Gettig won first money, killing twelve out of fifteen. Gerberich and Meek tied for second place with eleven each, Gerberich winning in the shoot off and Trafford got third money with nine killed. Rightnour got the consolation prize.

—Wm. Finn, of Lima, O., obtained excellent results from the use of Foley's Kidney Cure. "It relieved my backache and severe pain over the hips. It toned my system and gave me new vim and energy. It is an honest and reliable remedy, a sure cure for all kidney diseases." All druggists.

—At his home near Karthaus, Clearfield county, on Tuesday August 13, Isaac C. McCloskey, father of ex-Sheriff Edgar L. McCloskey, of Clearfield, died, aged 75 years. Deceased was a well known and prominent citizen of his section and was the owner of much valuable coal land in Karthaus township at the time of his death. His demise was due to his advanced years. He had been sick several months, but his condition did not become critical until shortly before his death.

A PRETTY WEDDING.

Was the McKee-O'Conner Nuptial Event at Lock Haven.

Thursday's Lock Haven Democrat gives the following account of the McKee-O'Conner wedding at that place Wednesday night. The bride, Miss O'Conner is quite well known in Bellefonte:

A very pretty wedding was solemnized in the Presbyterian church at this place last evening. The principals of the ceremony were Miss Margaret O'Conner, only daughter of C. M. O'Conner, of this place, and George M. McKee, a wealthy paper manufacturer, of New York. The officiating clergyman was the Rev. Dr. Niccols of St. Louis, an uncle of the bride. The church was beautifully decorated with lines of palms, culminating in a bank of heavy leaved flowers at the pulpit.

Promptly at 8:30 o'clock the bridal party arrived at the church and proceeded to the altar, where the bride was met by the happy groom. Mendelssohn's masterpiece was interpreted by Prof. Reimer in a masterful fashion and the sweet strains of the march filled the church.

The bride was attended by Miss May Sherrick, as maid of honor, and Misses Helen B. Lesher, Julia Pearson, Anne Kress. Mary Watson, of this place; Miss Bess Chiry, Fort Wayne, Ind., and Miss Mabelle Thompson, of Lemont, Pa.

The bride's gown was of white organdy covered with lace medallions. The jewels were diamonds and included a handsome sunburst, the gift of the groom.

The maid of honor's gown was of organdy, verdois green in color, and trimmed with lace and ribbon. The other bridesmaids wore gowns of white chiffon, trimmed with chenille and lace.

The bride carried a bouquet of bride roses and a maiden shower. The maids of honor carried red roses.

The groom's party was composed of William Holmes Teas, of Ridgway, Pa., as best man; John Tonner Harris, of Bellefonte; Isaac Foster Ham, Paulding Foote Sellers, Buffalo, N. Y.; Sylvester Bixler, and John O'Conner, of this city. The men wore the conventional evening dress with buttoniers of white violets.

Dr. Niccols used the Presbyterian ceremony in solemnizing the marriage, the bride being given away by her father.

A fashionable crowd filled the church comfortably full and the occasion passed off without the semblance of a hitch. After the ceremony a reception was given at the residence of the bride's father, at which the happy couples received the congratulations of over two hundred friends and relations. Supper followed the dancing, after which Mr. and Mrs. McKee left for an extended tour of Canada. A very enthusiastic and husky throated crowd escorted the party to the station where their departure was signalized by the usual pranks incidental to such affairs.

Astounded The Editor.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver Troubles it's a positive, guaranteed cure. Only 50c at F. Potts Green's drug store.

The Decker Family Reunion.

The Decker reunion took place Wednesday at the old Decker homestead along the Branch. About one hundred persons were present. The affair before dinner was in the nature of a friendly gathering, of which games, horse shoe pitching and conversation were the principal features.

The dinner itself was an incident calculated to arouse tender memories for many a day.

After dinner the company was brought together to hear the reading by Mrs. Reifsnyder of the family history. Rev. Leisher, who prepared the history, could not be present to read it on account of being called to the bedside of his sick son at Brookville. It related everything concerning this family of Deckers for a period of two hundred years.

After this a half dozen more persons made short addresses on past associations of the family, and Rev. D. E. Hepler, of Lemont, made the principal address of the day. Officers were elected for the ensuing year.

What A Tale It Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble, but Dr. King's New life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at F. Potts Green's drug store.

Clevenstine-Gavenslaver.

Harry Clevenstine, of this place, left Wednesday for Hanover, where he will be married to Miss Carrie Gavenslaver. The wedding tour will embrace Gettysburg, Pen Mar, Atlantic City and up the Chesapeake Bay, covering ten days. The bride and groom, will make their home in Bellefonte, where the former is employed by the Howard Creamery Company.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Scrofula

Few are entirely free from it.

It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Hood's Sarsaparilla

The best of all medicines for all humors.

Uncle Sam's Object Lesson.

W. J. Clarke in the Forum.

The welfare of a republic demands that the people shall understand and appreciate the government which they have created. Every agency which contributes to this end deserves encouragement; every one is needed. In fact, the people know less of their government than they should know.

They have patriotic faith, but that is not enough; they have printed reports, which few read; they seek other information. Only to a limited extent does the average citizen come in personal contact with governmental agencies. He may never see a ship or a fort; taxation touches him indirectly; of all the administrative forces the postoffice alone falls upon the general observation.

An excusable ignorance is almost universally prevalent. What should a Nebraskan know of the lighthouse service? What does a Vermonter see of Indian reservations? The department of agriculture investigates the cotton worm in Texas, but the citizen of Oregon must pay his share of the bill. New York harbor is improved, and Kansas is taxed for it.

In each case the common welfare is at stake, but how is the machinery operated? On this point even a member of Congress may have strangely vague ideas, applying to one executive department for information which relates to the work of another. Every administrative officer in Washington can tell of just such misconceptions.

An exhibit like that which the government now has at Buffalo is a report to the people of its work. It is a report in the form of an object lesson, which even the least educated visitor can understand.

The citizen who intelligently visits the government building at the Pan-American Exposition learns to appreciate the public service more highly than before, and he returns to his home a better American.

Telephone Extension.

Mr. John T. McCormick, of Bellefonte, district superintendent of the Central Commercial Telephone line, while in Lock Haven, Thursday, stated that within the next thirty days the line will be completed between Lock Haven and Jersey Shore, and patrons of the company will be able to talk with both Jersey Shore and Williamsport within that time over the Commercial and connecting lines.

Mr. McCormick was at Jersey Shore a few days ago and had an interview with Supt. Stewart, of the N. Y. C., relative to a crossing point at the big yards at Oak Grove.

Mr. McCormick and the superintendent were driven over the proposed line at Oak Grove and other important points. Poles, telephones, and all necessary supplies for the construction of a first-class line have been ordered and the work will be rushed as rapidly as possible. As soon as the line reaches a point on the "back road" opposite Oak Grove it will be started also at Jersey Shore, to connect at that point. The line will also be extended up Pine creek.

Mr. McCormick states that at the point where they had proposed crossing at Oak Grove there will be 42 tracks, and this has necessitated changes in the route between Charlton and Jersey Shore.

Foley's Honey and Tar for children, safe, sure. No opiates.
All druggists.

Fleas On Dogs.

It is nothing short of cruelty to animals to allow your dog to be tormented by fleas, as they usually are at this season of the year when nothing is done for them, and as a lover of man's most faithful companion—the dog—let us give you a cheap remedy for the pest: Take about two tablespoonfuls of "creolol" and pour it into a gallon of lukewarm water. Soak the animal's coat thoroughly with this and it will not only kill every flea or insect on him, but will keep others off for several weeks. "Creolol" is an antiseptic, cleanses the skin and is harmless.

Opera House Attractions.

During the month of September, the following attractions will be at the opera house, in the evening:

Tuesday, 10—Stetson's Uncle Toms Cabin.

Wednesday, 11—Puddin Head Wilson.

Thursday, 12—Franciscus, the Magician.

—In the pension issue at Washington Monday, Mrs. Helen Condon, of Johnstown, was granted a pension of $8 a month. Mrs. Helen Condon is the widow of the late J. Frank Condon, the well known official stenographer of Centre, Cambria, Blair and other counties adjoining, who shot himself in Altoona about three months ago.

HOW THE LEGS GROW.

The Shocks of Exercise Lengthen Them and Keep Them Even.

As a fact, says the author, our lower limbs are not usually both of exactly the same length, though they are so for all practical purposes. The left is usually the longer, though the gait is not notably influenced by this fact. At birth the lower limbs are shorter than the upper, and their movements are rather of the prehensile type. "We are not born leggy like the foal or kangaroo, but we gradually achieve legginess." The bones increase in length, not so much by interstitial deposit as by addition to their ends—that is, by progressive ossification of the layer of cartilage which intervenes between the end of the shaft and the epiphysis. Ossification goes on till the component parts of the bone are all united by bony matter, and thus the stature of the individual is determined.

If from inflammation or injury an epiphysis be damaged, one limb may be shorter than the other, or inflammatory stimulation may even induce an increased length in the bone affected. The skeletons of tortoises, not being subjected to sudden jars, have no epiphyses at the ends of the long bones, whereas in the leaping frog the extremities of the humerus and femur long remain as separate epiphyses. The continuous concussions to which the ends of the bones of the lower limbs are exposed when a vigorous child is excited by its own natural spirit to run about are doubtless of great value in assisting the growth in length of the lower limbs, which soon lose their infantile character and become adapted for running and walking. By exposing the lower limbs to the same influences and resistances during their entire growth we manage to maintain them of the same length, and gentle jars upon the epiphyses at the joints may be considered favorable to growth.—New York Medical Record.

A BIG WEDDING FEE.

The Generous Uses to Which Henry Ward Beecher Put It.

In his "Eccentricities of Genius" Major Pond says that often while traveling Henry Ward Beecher improved his time by having what he called "a general housecleaning" of his pockets, which would get loaded up with letters and papers until they could hold no more, when he would clear them out and destroy such papers as were worthless.

On one occasion Beecher happened to put his hand in the watch pocket of his pantaloons and found there a little envelope which he opened. When he saw its contents, he called Major Pond to sit beside him and remarked: "You remember the evening I married C. P. Huntington. I was so much interested in the subject that I forgot he handed me a little envelope as he went out of the door. I put it in the watch pocket of my pantaloons and never thought of it again until just now, and here it is, four $1,000 bills. Now," he said, "don't tell any one about it, and we will have a good time and make some happiness with this money. We will just consider that we found it."

And so in a day or two Mr. Beecher went with Major Pond to look at a cargo of fine oriental rugs, many of which he purchased and sent to different friends, and afterward he spent what remained of the money for coin silver lamps, unmounted gems and various pieces of bric-a-brac, all of which he gave away until he had used up the entire $4,000 "in making happiness among those whom he loved."

After Mr. Beecher's death the major related to Mr. Huntington the incident of this discovery of the four $1,000 bills, and the railway magnate observed: "I should never have given them to him. It was all wrong. I made a mistake. Money never did him any good."

The Questions of Clarence.

"Well, Clarence, what is it?" asked the boy's papa.

"I didn't say anything, papa," replied Clarence.

"I know you didn't, but it is fully five minutes since you asked a question, and I know from experience that another is due about this time."

"Well, papa, what are all those big United States flags made of?" asked the boy.

"Some of them are made of silk, Clarence, but by far the greater number are made of bunting."

"And, papa?"

"Well, Clarence?"

"Are the little flags made of baby bunting?"—Pittsburg Commercial-Gazette.

Give Everybody a Chance.

Emerson's dictum that we should treat every one as if he were all he ought to be is an excellent rule to practice in daily life. It is human nature to rise to the level that is expected of it. It is not necessary to waste time upon uncongenial people unless you are bound to them by strong family ties, but it is important that all with whom you come in contact be studied, with the desire on your part to give credit for all that is good in them and that nothing in their outward circumstances or appearance be allowed to prejudice you against them.—Ada C. Sweet in Woman's Home Companion.

Wise Too Late.

Fond Mother—Tommy, you don't seem very well.

Tommy—No, maw, I ain't. I wisht I had let sister eat that third piece uv pie.—Ohio State Journal.

HOOD'S PILLS cure Liver Ills, Biliousness, Indigestion, Headache. Easy to take, easy to operate. 25c.

IMMORAL SUASION.

It Has Certain Advantages Over The Milder Moral Method.

Moral suasion, the appeal to the rational nature of man, is doubtless a very good thing. But it will not compare with immoral suasion for inducing swiftness of thought or promptness of action. The burglar surprised in his raid and requested to "please go away" will argue the case in the forceful burglar way. But when a pistol is pushed in his face with the laconic order, "Get!"—he goes and stands not on the order of his going. The pistol, with its six solid arguments, is a wonderful persuader, and

in the line of immoral suasion cannot be surpassed.

It is a reflection on man's reason that he often refuses to do what common sense dictates, until he is forced to do it. Common sense tells a man that he cannot live irregularly and keep his health. He is warned and admonished time and again that hasty eating and irregular meals result in diseases of the stomach and other organs of digestion and nutrition. But because Nature does not directly threaten his life as the pistol does he goes right along until he is obliged to reform because disease forces him to do so.

UNHEEDED WARNINGS.

It is only when all her warnings have been unheeded that Nature no longer says "You should not" but "You shall not." This is practically what happens when the lover of high living has to give up dainty dishes, sweets and condiments and come down to a diet of oatmeal or tea and toast.

There are thousands of dyspeptics whose condition shuts them out from all the pleasures of the table. There are thousands of others who are on the high road to a like condition, unheeding the warnings of the protesting stomach.

The great fact is that every man and woman who suffers from dyspepsia can be almost certainly cured by the use of Dr. Pierce's Golden Medical Discovery. It always helps. It almost always cures. Only two people in every hundred who give "Golden Medical Discovery" a fair and faithful trial fail of a perfect and permanent cure.

"I have been thinking of writing to you for some time," writes Mrs. W. D. Benson, of Maxton, Robeson Co., N. C., "to let you know what a wonderful thing Dr. Pierce's Golden Medical Discovery did for my little boy. He was taken with indigestion when he was a year and a half old, and he was under the doctor's treatment for five long years. We spent all we made for doctor bills, and it did no good. When he would take a spell of indigestion he would lie for ten and fifteen days, and it seemed as though he would die. He had these spells every two or three weeks. He could not eat anything only a little milk and cracker, and sometimes even this would make him sick. He could not eat any meat or vegetables and he got very weak; could not sit up all day, and I gave up all hope of his ever getting any better. Three years ago I found one of your books, and on looking it over one day I noticed Dr. Pierce's Golden Medical Discovery recomended for indigestion. We bought some and gave it to our boy. He had been treated at Hood's Creek by a good doctor, and at Bennettsville, S. C., and at Currie, and Lumberton and Maxton, and was only relieved for a short time. We gave him two bottles of Dr. Pierce's Golden Medical Discovery and it cured him. He is well as can be and can eat anything that he wants and it does not hurt him. He has not been sick a day since and it has been three years since he took your medicine. I can safely say that he is well."

WHERE WILL IT END?

No one can say where the results of disease of the stomach and its allied organs will end. The stomach is the source of supply for each organ of the body. Whatever affects the stomach to reduce its strength and its ability to provide nutrition for the dependent organs will also affect the organs themselves. Heart, liver, lungs, kidneys, all must share the "weakness" of the stomach. When diseases of the stomach and other organs of digestion and nutrition are cured by the use of Dr. Pierce's Golden Medical Discovery, diseases of other organs originating in stomach "weakness" and innutrition are cured at the same time.

"I sent you a letter about a year ago," writes Mrs. J. Ellis Hamilton, of Farmington, Marion Co., West Va. "I stated my case as plainly as I could, and received a letter from you in a few days, telling me to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription'—a bottle of each. I used three of each; and feel like a new woman. Don't suffer any pain or misery any more. Before using your medicines I suffered all the time—had jaundice, caused from food not digesting properly. I would have sick headache three and four times a week, and jaundice every four or five weeks. Could not do the work myself. I commenced using your medicines as recommended for liver complaint, and I am cured. I doctored three years without relief, only for a short time, and then I was as bad as ever. Haven't had sick headache since I took the first bottle of medicine."

There is no alcohol in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

A FULL TABLE

The table of contents, of Dr. Pierce's Common Sense Medical Adviser, offers a wide range for the thoughtful or the curious reader. In the 1008 large pages of this remarkable book have been condensed the sum of human knowledge upon the vital truths of biology, physiology and hygiene. It is full of helpful household hints on home medicine and treatment. Among its 700 illustrations are pictures of medicinal herbs and instructions as to their value and preparation for use. The book is a mine of valuable knowledge, and it is sent absolutely *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper-covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

Their Troubles Begin.

Friday morning's Altoona Tribune says:

The soldier boys of the Fifth regiment have always been considered a fair lot of young men, but some toughs have evidently succeeded in getting into the ranks, if the conduct of several members of the details is to be considered. The details of the several companies east of this city passed through yesterday en route to Somerset to pitch the tents for the annual encampment. That of company B, of Bellefonte, and company E, of Clearfield, were aboard Pittsburg express, and they were a well behaved lot of men. The details of company A, of Huntingdon, and company G, of Lewistown, were aboard fast line last evening. The train had hardly come to a stop when the soldiers with a yell jumped from the cars and began acting in a very disorderly manner. Their conduct was disgusting to the large number of people who were at the station. Not all were misbehaved, but the majority of the members of company G acted in an unbecoming manner. The worst of the lot were Corporal Threkeld and Private Lushell, of company G, and Private Fair, of company A. Their conduct was reported to Colonel Burchfield and he immediately ordered that a summary court be appointed this morning for their trial as soon as the soldiers reach camp. The greater part of company G detail misbehaved, but the two members named were the worst. The detail of company C, of Hollidaysburg, boarded fast line here and their conduct was excellent. The boys got on the train without a word that would stamp them other than gentlemen.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

—Mrs. Victoria Scravendyke, who is well and favorably known here where she resided for some years, and Hamilton Hemler, the Harrisburg banker, were married last week in Baltimore, Md.

The Pastor's Didactic Umbrella.

The dignity of a certain Sunday school picnic was demoralized the other day before the scholars and teachers were well out of town. It was arranged that the majority of the scholars should go to the grove on a trolley car, and that the pastor of the flock, several teachers and the baskets should follow in a wagon hired for the occasion.

This suggestion was followed out and the procession started auspiciously. The wagon was a trifle in front, and as the trolley car passed it the pupils of the Sunday school saw that that made them fear to look again. Their pastor was sitting on the seat beside the driver, his broad brimmed hat on his knee, his hand on the support of a gaudy, yellow umbrella that shaded the seat, and on the umbrella was this inscription:

"Drink Firewood Whiskey."

It was too late for the scandalized pupils to expostulate. They were whisked by in short order, and so it was not until he reached the picnic grounds that the good man knew what strange devise the banner bore which he had upheld for five miles.

When the party returned the sun was still in the heavens, but the umbrella was furled and carefully tucked under the seat to prevent a scandal.—Baltimore News.

A Physician on Buttermilk.

The virtues of that old-fashioned and easily procured drink, buttermilk, have not half been sung, says a well known physician. It is an actual fact that its lactic acid is even more healthful than the citric acids of oranges and lemons. It is credited, too, by those who should know, with being of value to a rheumatic patient.

It has been found to be both nourishing and fattening, as well as remarkably easy of assimilation. If liked at all, it is undoubtedly a better drink in summer than many of the carbonated, artificially flavored drinks that are consumed in almost unlimited quantities.

LOST WOMAN'S CRY HEARD.

Thrilling Experience of Four Sugar Valley Women In White Deer Mountains.

Four women of Sugar Valley will not soon forget the awfulness of the twenty hours that they were lost in the White Deer mountains. Nor will they soon be free from the pains they suffer as the result of their long and tedious tramp over the rough and stony mountains in an effort to find the roadway.

Mrs. Rachel Swartz and her ten-year-old daughter, and Mrs. Swartwood and Miss Simcox left their homes early Monday morning on a berry picking expedition. The White Deer mountains, near Loganton, was their objective point. There the berries grow in abundance and these women knew just where the crop was the heaviest. They became interested in their work and as they gathered the berries they gradually worked their way further into the heavy underbrush. Late in the afternoon they were ready to start for home, having filled their buckets and being tired out. They wandered along in what they thought was the right direction, but after an hour's tramp they found themselves no nearer the road than when they started back. However, they continued on and when dusk came the women began to feel uneasy and concluded that they were lost.

On they tramped and when it became so dark that they could no longer see, they sought a place to spend the rest of the night. None of the women slept. They sat close together and anxiously awaited some sound that would indicate the presence of some human being.

When the women did not return home in the evening the husbands and relatives became uneasy and search was instituted. Mr. Swartz and Samuel Glance, went to the place where the women started to pick berries, and with lighted lanterns and dogs they began the search. On they traveled for a distance of eight miles over the rugged mountain sides, and when footsore and weary and about to quit the search for a time, they heard the voice of a female in the distance. They instantly renewed their search, and within the next half hour the men found the women huddled together. They waited until morning, when they discovered that they were along White Deer creek and within a stone's throw of the main road. The men had taken some food with them which the women were very glad to get.

It was 3 o'clock Wednesday morning when the women were found, and several hours thereafter they were safe at home.

From 1883 to 1898 the temperature in Manila ranged from 77 in January and December and 78 in February to 83 in April and May. The rainfall in July, August and September averaged about 14 inches. Humidity 71 in April to 86 in September.

To Heal a Hurt

Use Banner Salve, the great healer. It's guaranteed for cuts, wounds, sores, piles and all skin diseases. Use no substitute. All druggists.

Soda that Satisfies.

Have you ever noticed that some soda water doesn't satisfy one's thirst. That's because the water is too lightly charged and is flat and dead, or is too heavily charged and is nearly all gas and foam, or s not sufficiently cooled, or else he syrups are deficient in quality or quantity.

Not so with our soda; our new carbonater keeps the water uniformly charged to the correct pressure; we use an abundance of ice; our syrups are the best that money can buy and we use them liberally. Our soda is extra good and always the same—that's why people go out of their way for it.

NEWS FROM MOBILE.

Storm Not So Severe But There Was Much Excitement.

TRUCK GARDENERS LOSE HEAVILY

The Steamboat Lady Jane Was Kept Busy Rescuing Them From Their Gardens Between the Mobile and Spanish Rivers.

THE RAINFALL WAS 5.84 INCHES

MOBILE, Ala., August 17.—Superintendent Charles Marshall, of the New Orleans division of the Louisville and Nashville road, reached Mobile on a hand car at 7 a. m., reporting the road washed out in many places. He was not able to say when traffic would be resumed.

While the storm was not as severe as the record breaker of 1893, there was much excitement among the people because of the recollection of the great damage by the earlier storm. The people were apprehensive of a repetition of that disaster and spent a horrible night, out of doors. Everyone was drenched thoroughly by the heavy rain that was blown almost horizontally. The rainfall was 5.84 inches.

During the storm the steamboat Lady Jones went to the rescue of the truck gardners who live in marshes between the Mobile and Spanish rivers. In the 1893 flood the people there suffered greatly. The Lady Jane rescued all that could be reached who were in special danger and brought them to the city. One marsh dweller named Stauter and his family of nine, spent the night in an open boat near his house and rowed to the city yesterday morning. He does not think anything is left of his place. The other marsh people returned yesterday. News last night is that the yacht Ariel, bound for Fish River, with Robert and Winthrope Hallet, of Mobile, and others on board, pounded to pieces upon the wharf at Battles, on the eastern shore. Nothing has been heard of the crew.

From the Fowl river, western shore, it is reported that the schooner Marguerite was taken up bodily and left high and dry on the beach.

PENSACOLA, Fla., August 17.—The American steamship Evelyn, ten days from New York for this port, went aground at 8 o'clock Thursday morning about eight miles from Pensacola bar. She is listed and is fast going to pieces.

During the storm Thursday night the Portugese bark Propheta, laden with a cargo of timber valued at $5,000 from St. Thomi, Africa, was badly damaged. Her rigging was carried away, masts snapped off and she was stove in on the starboard side and stern. The bark B. A. Brayton was also slightly injured. The storm Thursday night was one of the wildest ever known here. The storm increased in violence and reached a wind velocity of seventy miles an hour with spurts of ninety miles. There was great damage to shipping in the bay.

Remarkable Railroad Accident.

An unlooked for and most inexplicable streak of luck occurred at Lewistown Junction on Friday of last week. While backing from the north to the south side of the station it was forgotten to turn one of the switches, it being a trailing point, and a car of merchandise left the tracks. Before they could get a signal to the engine which was around the curve out of sight, the car had been turned directly across No. 2 and 3 tracks. The conductor went to the office to report and while there Engineer McDougal, for some unknown reason, started to back the train. Everyone in sight expected to see the cars pile up in all sorts of shapes, but were filled with amazement when the car righted itself with a jerk, climbed on the rails and moved off as if nothing had ever occurred to mar its peaceful passage over the line.

Would Have Cost Him His Life.

Oscar Bowman, Lebanon, Ky., writes: "I have been using Foley's Kidney Cure and take great pleasure in stating it gave me permanent cure of kidney disease which certainly would have cost me my life." Take none but Foley's. All druggists.

A Gould Connection East.

A Philadelphia dispatch in reference to the extension of the proposed Gould system of railroad into Eastern Pennsylvania says:

Whatever may be Geo. Gould's scheme for getting east, one thing is certain, that the Reading officials are maintaining absolute secrecy, and yet it is evident that they are in a measure acquainted with the means to be employed. There are those who are firmly of the opinion that when the plans are made known it will be found that a permanent traffic arrangement has been entered into with the Reading and whatever connecting lines are found to be unavoidable will be paralleled by new trackage.

For Whooping Cough.

"Both my children were taken with whooping cough," writes Mrs. O. E. Dutton, of Danville, Ill. "A small bottle of Foley's Honey and Tar cured the cough and saved me a doctor's bill." All druggists.

WILSON REUNION.

The Annual Meeting Together of the Large Connection.

Thursday, the 15th inst., was a big day for the Wilson family whose father, grandfather, great-grandfather, or great-great-grandfather was George Wilson, who was born September 24, 1753, and afterwards became the first Wilson settler in Half Moon Valley, in Centre county, and died August 26, 1837.

The occasion was a reunion of the Wilson family who were the lineal descendants of George and Esther Wilson. (Esther Wilson was born February 23, 1752, and died February 3, 1837.)

It had been arranged to have the meeting in a grove near the old homestead, which is now owned and occupied by John Wilson, but the condition of the weather precluded the carrying out of this plan and the hospitable home of John Wilson was thrown open to the assembling representatives and, notwithstanding the inclemency of the weather, the program as previously arranged was gone through with and a good time had.

Capt. John A. Hunter, of Stormstown, was made chairman of the meeting, after which Asbury Wilson made the address of welcome, which was responded to by a Miss Leonard.

The presentation of the monument (which had been erected to the memory of George and Esther Wilson) was made by R. Orlando Way, and was accepted on behalf of the descendants by John Wilson.

A historical paper was read by Miss Harriet Wilson, which was followed by a short talk by William L. Wilson, who is 83 years old.

By the unanimous vote of those present it was decided to make permanent the organization—the Wilson Family Memorial Association—and the following officers were elected for the ensuing year:

President, Wm. L. Wilson, of Stormstown; secretary, H. G. Elder, of Tyrone; treasurer, Miss Annie M. Hunter, of Stormstown.

George Wilson came from Chester county to Centre county and settled in Half Moon Valley where, in 1792, he organized and established, to live through years of time, the Friends' church.

Over three hundred people attended the reunion on Thursday. The oldest representative, William L. Wilson—83 years of age—and the youngest, Ernest Calvin Myers—4 months old—of the Wilson family were there.

All speak in glowing terms of the royal treatment, including an exceptionally good dinner, received at the home of John Wilson, whither the party was obliged to go because of the rain.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cure wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in all parts of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup" and take no other kind.

Game Law.

No hunting or shooting on Sunday.—No song bird dare be caught or killed in any way.—Destruction of birds' nests is forbidden; penalty, $10.00. The killing of game birds is forbidden except with a gun held to the shoulder.

But two deer may be killed in one season.—Ten pheasants, fifteen quail, ten woodcocks, two wild turkey are a day's hunt between October 15 to December 15.

Rabbits may be killed from Nov. 1 to December 15. Grey, black and fox squirrels, October 15 to December 15. Red and pine squirrels are not protected.

Ducks, geese and snipe legal from September 1 to May 1. Plover from July 15 to January 1. Rail and reedbirds, September, October, November. Birds and wild animals found destroying grain, fruits of vegetables may be killed any time.

The fine for hunting on posted cultivated grounds is $5.00.

After Laundry Machine Plant.

William B, Given, represents a large syndicate that has arranged to buy the twelve leading laundry machine plants in the United States. Mr. Given has asked the shareholders of the Wilson Laundry Machine company, of Columbia, for an option on their stock at $200 per share, the par value of which is $50. It is stated that Columbia will be the location of one of the syndicate's largest plants if the deal is consummated.

REVIVO RESTORES VITALITY
Made a Well Man of Me.
THE GREAT FRENCH REMEDY
produces the above results in 30 days. It acts powerfully and quickly. Cures when all others fail. Young men will regain their lost manhood, and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores Nervousness, Lost Vitality, Impotency, Nightly Emissions, Lost Power, Failing Memory, Wasting Diseases, and all effects of self-abuse or excesses and indiscretion, which unfits one for study, business or marriage. It not only cures by starting at the seat of disease, but is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off Insanity and Consumption. Insist on having REVIVO, no other. It can be carried in vest pocket. By mail $1.00 per package, or six for $5.00, with a positive written guarantee to cure or refund the money. Book and advice free. Address

To CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper and avoid the use of pale or fancy inks.

WILBUR F. HARRIS

Local Department.

—Louis F. Wetzler, of Milesburg, has been granted a pension by the goverment of $8.00 per month.

—The second of the series of summer dances to be given by our society people will be held in the armory this evening.

—Among the pensions granted Tuesday at Washington, was one to Mrs. Amanda Peters of Shiloh, for $12.00 per month.

—Private Roger T. Bayard of Co. B, is serving as regimental clerk of the 5th Regiment, during the present encampment at Somerset.

—A blessing alike to young and old. Dr. Fowler's Extract of Wild Strawberry. Nature's specific for dysentery, diarrhoea and summer complaint.

—Examinations for admission to the Pennsylvania State College will be held at the college on September 10 and 11. The fall term will open on the 12th.

—P. F. Keichline, the green grocer, is about to enlarge his store building located over the race. It will have a frontage of 22 feet when the work is finished.

—Scrofula, salt rheum, erysipelas and other distressing eruptive diseases yield quickly and permanently to the cleansing purifying power of Burdock Blood Bitters.

—The sale of the Bellefonte Steam and Gas plant which was to have taken place Tuesday morning has been postponed until Friday morning at 10 o'clock.

—P. B. S. Bordner, postal clerk on the Central railroad of Pennsylvania, left Monday afternoon for Williamsport. Mr. Weber, of Rebersburg, will take his place.

—"I had a running, itching sore on my leg. Suffered torturees. Doan's Ointment took away the burning and itching instantly and quickly effected a permanent cure." C. W. Lenhart, Bowling Green, Ohio.

—Jacob Bilger, one of the oldest and most widely known citizens of Curwensville, and father of George M. Bilger, of the Clearfield Republican, is dead at the age of nearly 77 years.

—Bodily pain loses its terror if you've a bottle of Dr. Thomas' Eclectric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

—Andrew Thal and Miss Bertha Hokenbury were married Tuesday morning at 7:30 in St Johns Catholic church by Rev P. McArdle. Mr. Joseph Thal was best man and Miss Mollie Keefe, bridesmaid.

—Elizha Ames Potter, an old resident of Point Lookout near Philipsburg died Sunday of heart trouble, aged 76 years, 6 months and 1 day. He is survived by one daughter Mrs. Frank Duke of Grampian, Pa.

—The Bellefonte Castle, Knights of the Golden Eagle will give a banquet and elocutionary entertainment in their hall in Eagle block, Tuesday evening August 27. Miss Elizabeth Faxon will have charge of the elocutionary part of the program.

—Three hundred feet of track was washed out on the Lewisburg division of the P. R. R., near Linden Hall by the storm Sunday and as the result the Lewisburg passenger train due here at 9 o'clock Monday morning did not arrive until nearly 11 o'clock.

—John Hewing, while attempting to jump a freight train at Julian, Wednesday morning, missed his footing and was thrown beneath the wheels. One of his legs was crushed so badly that it is feared it will have to be amputated. He was taken to the Lock Haven hospital for surgical attention.

—Frank Linn, son of Mr. and Mrs. J. P. Linn, died at Eagleville at 7 o'clock Tuesday morning of typhoid fever. He was 20 years old and is survived by his parents and one sister. The funeral took place Wednesday afternoon. Services were held at the house at 1 o'clock. Interment at Eagleville.

—Prof. J. Angel, an expert Eye Specialist, late from New York City., with Headquarters 32 W.4th St., Williamsport Pa., will be at the Bush House on Monday and Tuesday August 26-27. Those that are troubled with headache, weak or Defective eye-sight will be well repaid to call on the Professor. Every case is guaranteed.

—A party of four young men from Howard, Frank Fearn, William Loder, Kooney Gluck and Henry Williams, while out on the mountains after cattle, came in contact with ten large rattlesnakes, the smallest one having on it 12 rattles. The largest one had 18 rattles and was 4½ feet in length, and they were successful in killing them all.

—Last Friday night thieves broke into the cellar of the residence of William H. Garman on East Linn street and carried off everything they could lay their hands on in the way of eatables, butter, eggs, meat and lard were their spoils. Saturday night they attempted to break in again but were frightened away before they succeeded in gaining entrance. This is a matter for the police officials to investigate.

THE BORO COUNCIL.

The Regular Semi-Monthly Session Held Monday Night.

Council met Monday night at 7:30 with President Gerberich in the chair and the following members present: Walkey, Knisely, Cunningham, Whittaker, Potter.

The minutes of the previous meeting were read and approved after which council proceeded to consider the business before them.

Burgess Blanchard appeared before council in regard to a binding machine that had been left in the alley near McCalmont & Company and which had been complained of as a nuisance. It seems that McCalmont & Co., had sold the binder to John Rishel who had returned it but McCalmonts' refused to take it back. Rishel however left it in the alley and refused to keep it. A suit is now pending between the parties in regard to the matter. The Burgess was instructed to take possession of it and charge storage for same until ownership was established.

The reports of the different committees elicited nothing of particular importance.

Burgess Blanchard turned in $10.00 in fines collected by his department.

The bond of High Constable William Bathurst in the sum of $200 was offered for approval and accepted. The bondsmen are James Harris and Col. Wilbur F. Reeder.

It was reported to council that P. F. Keichline contemplated building a larger frame building over the race where his present store is. Councilman Potter entered a protest against the erection of a frame building in that section of the town.

The Finance committee was instructed to get together all the boro ordinances and have them gone over by a competent party and then printed in book form.

The following bills were approved and ordered paid:

A Allison, pipes	$ 56.17
Walter Whippo, blacksmithing	6.55
R. B. Taylor, coal for W. W.	178.75
Water Pay Roll	153.62
Police Pay Roll	58.00
H. B. Pontius 1 mo as clerk,	13.00
Thos. Shaughnessy, mkt. clerk,	1.50
Geo. L. Potter, insurance	7.00
Geo. A. Bayard, on account	65.00
Jacob Gross, uniform for police	18.00
Bft. Fuel & Supply Co., coal	72.26
Street pay Roll	112.07
Wm. Bathurst, burying dogs	1.00
	$737.92

An Interesting Visitor.

Rev. James P. Hughes, principal of the Bellefonte Academy, is now visiting his old home at Logansport, Ind. In speaking of him the Logansport "Pharos" says:

"J. P. Hughes, of Bellefonte, Pa., is in the city for a few days, renewing old friendships and seeing his former pupils. Mr. Hughes was the first instructor to take charge of the Presbyterian Academy, which is now Judge Baldwin's residence at the corner of Market and Seventh streets. His assistants were Judge Winfield and Luther Roberts. Mr. Hughes left Logansport in 1867. This is his first visit to the city since that date. While he is now in his seventy-fourth year he is hale and hearty, which he attributes to his fondness for all kinds of athletics—hunting, fishing, swimming, skating, field sports, etc. He introduced base ball and organized the first club in the city. He has been spending his summer vacation fishing in the lakes of Michigan.

An Aged Lady'S Death.

Mrs. Mary MaKeating died at midnight Thursday at the home of her daughter, Mrs. Margaret Eadon, of North Spring street. Death was due to the infirmities incident to old age.

Deceased was born in Liverpool, England, Dec. 24, 1825 making her age 75 years 7 months and 21 days. Her maiden name was Brennen. She was married to Capt. James MaKeating; an officer in the British navy, who was killed by an accident at Dundee, Scotland, in 1875. The following children survive, Mrs. Margaret Eadon, Bellefonte; Miss Mary MaKeating, Manchester, Eng.; James, of Liverpool, Arthur, of London, Eng.

The funeral took place Saturday morning at 10 o'clock from St. John's Catholic church. Interment in the Catholic cemetery.

Runkle Reunion.

Mrs. Lucinda Runkle, widow of the late ex-Judge John K. Runkle, of Spring Mills, was made happy Wednesday by her entire family, excepting one son, Aaron N. Runkle, of Santa Ana, Cal., spending the day with her.

The family consists of the following: John H. Runkle, wife and family, of Centre Hall; Dr. S. C. Runkle, 1605 Christian street, Philadelphia, and son John; Rev. James M. Runkle, pastor of the First Reformed church, Williamsport, wife and two daughters, Sarah and Mary; Rev. and Mrs. W. A. McClellen, the former pastor of the Youngstown charge, and children, Roy and Grace; J. B. White, wife and daughters, Blanche and Ruth, of Pitcairn, and Miss Sallie, the only daughter at home; Mrs. Tillie Williams, Altoona. Also, Mr. and Mrs. John O. Scholl, of Altoona.

Death of An Infant.

Charles Allen, son of Samuel and Margaret Justice, died Thursday afternoon at 5 o'clock of cholera infantum at the home of his parents at Morristown, along the line of the Bellefonte Central Railroad, aged 1 year and 7 months.

The funeral took place Saturday morning at 10 o'clock from the house, Rev. W. H. Brown, of the Bellefonte Evangelical church officiating. Interment was made in Meyer's cemetery.

A SUDDEN DEATH.

James T. McCulley Passes Away at His Bishop Street Home.

The community was very much shocked Tuesday night when the news became broadcast of the sudden death of James T. McCulley, the well known liveryman. Mr. McCulley had been attending to his business as usual Tuesday and was apparently in his usual health. About 5 o'clock he went home and supper not being ready he lay down on a lounge in the parlor. About half past five his wife went to call him to supper and was shocked to find him cold in death. Heart disease was the cause of his sudden demise.

James Thomas McCulley was born in Maryland 63 years ago and moved to Bellefonte when quite young. For the past 28 years he has been engaged in the livery business at this place. He was married to Mrs. Agnes Bayard, widow of the late John Bayard, a soldier in the rebellion. Her maiden name was McCaffery.

She with her four children survive to mourn the lose of a kind and affectionate husband and father. The children are James A., Marion B., Joseph and William Frederick, all of Bellefonte. Also one step daughter Mrs. Howard Spangler, of this place.

Deceased is also survived by one sister, Mrs. Joseph Furey, of Lock Haven.

The funeral will take place next Friday afternoon at 2 o'clock from the house. Rev. William Laurie of the Presbyterian church will officiate. Interment in the Union cemetery.

AN AMUSING INCIDENT.

In Which the Assistant Supervisor of the P. R. R. Figured.

Quite an amusing case of mistaken identity occurred Saturday morning at the Pennsylvania railroad station at this place when the 9:28 train from Tyrone came in. The facts in the case are about as follows:

Friday evening a fight took place at Retort between a Hungarian and an American in which the former was badly done up. He immediately had a warrant issued for the arrest of his man and the warrant was sent the authorities at this place with the information that the offender would pass through here on the 9:28 train Saturday from Tyrone. Armed with the warrant, Col. Amos Mullen proceeded to the station to land his man. When the train pulled in two of the Hungarians were on it and they motioned to Colonel Mullen and pointed out the supposed assailant. The officer tapped the stranger on the shoulder, saying, "I want you." The man asked what he was wanted for and Officer Mullen told him he would explain that when he got him outside. He accompanied the officer very willingly to the rear of the passenger station where the warrant charging him with assault and battery was read to him.

A look of relief passed over the stranger's face as he pulled from his pocket a railroad pass with his name engraved thereon showing that he was not the man wanted but instead was the Assistant Supervisor of the Pennsylvania railroad.

The Hungarians saw their mistake and the supervisor was allowed to continue his journey undisturbed. Officer Mullen apologized for the awkward mistake which the Hungarians had made and the apology was gracefully accepted by the supervisor whose gentlemanly manners and neat attire gave the lie to any such charge as the Hungarians had preferred.

Bellefonte Academy for 1901-02.

The Bellefonte Academy will open its fall session on Wednesday, September 11. The prospects for a larger attendance than ever are very bright. There will be no school in the afternoons of the first week. Parents are urged to have their children present at the opening sessions.

The principals have purchased new school apparatus during the summer which will add greatly to the already strong equipment of the Primary and Intermediate departments. The corps of teachers and their departments will be as follows:

Rev. J. P. Hughes, A. M., principal: Mathematics and Book-keeping.

J. R. Hughes, A. M., associate principal: Latin and Greek.

Mr. Arthur H. Killen, A. B., (Yale): Mathematics, Sciences and Athletics.

Miss Isabella S. Hill, A. B., (Wesleyan): English, Rhetoric and Literature.

Miss Kate Stewart Davis: Modern Languages and History. (Miss Davis has studied extensively in France and Germany.)

Miss Helen E. Overton, lady principal: Superintendent of Primary department.

Miss Margaret Thomas: Assistant in Primary work.

School schedule arranged to accommodate all students who come on the trains.

Students from the country cannot afford to miss the training of the Academy.

Death of Hugh Conaghan.

Hugh Conaghan, who is well known here having at one time been a resident of this place while employed as section boss on the Bald Eagle Division of the P. R. R., died at a Pittsburg hospital Monday night of typhoid fever. He was ill only a few days. After he left here he accepted a similar position on the West Penn Branch, his home being at Wall Station. The funeral took place at Tyrone Wednesday. He is survived by three sisters and one brother.

PRETTY NUPTIAL EVENT.

F. H. Vallimont, of Kane, Weds Miss Mary Kohlbecker of Milesburg.

St. John's Catholic church on East Bishop street was the scene Wednesday morning of a very pretty wedding event when Miss Mary Catherine Kohlbecker, of Milesburg, became the bride of F. H. Vallimont, of Kane. The ceremony was performed at 7:30 o'clock, the nuptial mass being said by Rev. P. McArdle, pastor of the church. The bride was attended by her sister, Miss Stella Kohlbecker, while her twin brother, Henry Kohlbecker, acted as best man.

The bride is the daughter of Alois A. Kohlbecker, the well known and popular landlord of the hotel at Central City and on the return of the wedding party from the church a reception and splendid wedding breakfast awaited them. There were about twenty-five guests present. The occasion was doubly celebrated on account of it being the birthday of the popular host, Landlord Kohlbecker.

The interior of the house was very tastefully decorated for the occasion by John Noe, of Pittsburg, the well known traveling man, who besides his many other excellent qualities, is a decorator of no mean ability.

Mr. and Mrs. Vallimont departed on the noon train for an extended wedding tour which will embrace the Pan-American Exposition and Niagara Falls, after which they will go to housekeeping at Kane where the groom is employed in a large glass factory.
